Application for Accessibility Features Tax Credit

Section 10-235.21 of the Prince George's County Code and Section 9-205 of the Tax-Property Article of the Annotated Code of Maryland, the owner of Real Property may receive a property tax credit against the County portion of the property tax bill for the installation of an accessibility feature on an owner's existing principal residence. Please consult the County Code for a listing of applicable accessibility features. The feature must be installed within the twelve months preceding the application. The credit allowed under this section is the lesser of 50% of the eligible costs or $2,500. Should the credit exceed the County portion of the property tax in the year of eligibility, the remaining portion will be applied to the next tax year; subject to the annual limits set forth in Section 10-235.21 of the County Code. This credit cannot be combined with any other credit granted under the Tax-Property Article, Annotated Code of Maryland, or the County Code during the taxable year.

The application shall be filed no later than April 1 prior to the first taxable year for which the credit is sought. Credits will be granted in the order in which they are received. All taxes are due and payable when issued. Only one application for each property shall be accepted during a single tax year for the installation of an eligible feature.
