

Notice of RFP for Prince George's County Climate Strategy Plan

Prince George's County is working with the Washington Metropolitan Council of Governments (MWCOCG) to develop a climate strategy. Over the next couple of weeks, a consultant will be hired and stakeholders from within the County, both government and non-government, will be asked to participate and provide their input into the development process. Some of these County groups include the Air Quality Workgroup, Energy Coordinating Committee, Green Infrastructure Workgroup and Maryland-National Capitol Park and Planning Commission.

Please review *RFP 11-02: Technical Services for the Development of Prince George's County Climate Strategy Plan* at <http://www.mwcog.org/doingbusiness/cogbid/> and circulate it to any organizations that might be interested.
