

Pet Parenting 101

Are you thinking of getting a pet, either for the first time or for the first time in a while? Do you already have a pet but have questions about their care and behavior?

The Prince George's County Animal Management Group is offering free Pet Parenting classes for anyone thinking of adopting a pet or for pet owners who may have questions about their current pets. The free classes will be offered on Saturdays, and class sizes are limited to 20 people. Class topics include introducing a pet to your home and family; pet-proofing your home; pet health and nutrition; behavior and training issues; breed characteristics to consider; estimated costs of pet ownership and a variety of other subjects.

Most pet behavior problems are easily resolved. Knowing what to expect from your pet and how to handle behaviors in advance can go a long way toward preventing problems. Pet Parenting 101 will provide you with the information you need to find the perfect pet to match your lifestyle and the tools you need to live together "happily ever after."

To learn more about Pet Parenting 101 or to register to attend a class, please contact the Prince George's County Animal Management Group at (301) 780-7201. Informational handouts will be provided for participants to take home.
