**PRINCE GEORGE'S COUNTY TO GIVE AWAY 4,000 SIX FLAGS
AMERICA TICKETS TO RESIDENTS WHO GET VACCINATED
AGAINST COVID-19**

LARGO, MD – Prince George's County Executive Angela Alsobrooks, along with the Prince George's County Health Department, announced today that the County is offering a new incentive to residents who get vaccinated. Due to the generous donation of 4,000 tickets by Six Flags America, Prince George's County residents who receive a COVID-19 vaccine can receive two free tickets to Six Flags America, while supplies last.

“We are Prince George's Proud to work with Six Flags America to promote vaccination efforts throughout the County,” said Prince George's County Executive Angela Alsobrooks. “While we have made significant strides in our efforts to vaccinate all of our eligible residents, we recognize that we must also continue to work to reach our most vulnerable populations. We hope that offering families a much-needed day of fun and excitement at Six Flags will encourage more of our residents to get vaccinated and be Proud to be Protected against COVID-19.”

Beginning today, all Prince George's County residents 12 and older who receive a COVID-19 vaccine at the Prince George's Sports & Learning Complex will receive two free tickets to Six Flags America. Tickets will be provided while supplies last or until Friday, September 17, 2021, and can be used on any public operating day through Sunday, September 19, 2021.

“Six Flags America is proud to support vaccination efforts in Prince George's County,” said Six Flags America Park President Richard Pretlow. “After serving as a mass vaccination site this spring—resulting in nearly 340,000 vaccines delivered—we are hopeful that this ticket donation will help reach underrepresented communities. We are excited to offer a day of thrills at Six Flags to help encourage residents to get vaccinated.”

Residents should visit mypgc.us/COVIDVaccine for clinic operating hours or to schedule an appointment at the Prince George's Sports & Learning Complex. Walk-ins are also accepted.
