License Plate-Based Digital Residential Parking Permit

What is a Residential Parking Permit Program?

The program allows residents to set parking restriction days and times so that they control non-resident parking on the neighborhood streets

What does the Residential Parking Permit Look Like?

 **NO**

 **YES**

Your License Plate, not a sticker or
place card, will identify all valid
residential parkers

What Are the Advantages of This System?

- **NO** hangtags on rear-view mirrors
- **NO** adhesive permits on your windows or bumpers
- Prevents falsification or photo copying of hangtags or permits
- Your LICENSE PLATE will identify you as a registered Residential Parker.

How Will We Identify Those Who Do Not Belong In Your Neighborhood?

- The cameras on this state of the art vehicle can automatically scan all license plates on both sides of the street as the officer drives through your neighborhood
- The officer will receive a visible and audible signal when a tag that is not in the database is located
- The officer will issue a citation

How Much is the Citation?

For those who are not registered to be parked in Residential Zone, the citation is \$50.

Is This Something For My Community?

- YES, if you find a high number of out-of-state vehicles taking up valuable parking spaces of residents.
- YES, if you find it difficult, at night, to find a parking space close to your home, because non-residents are taking those spaces.
- YES, if you are being pushed out of your residential area because residents in a nearby apartment complex are using the spaces on your street.
- Yes, if a number of residents have multiple vehicles, that are not registered to their address.

How Would My Community Get Involved?

If at least 60% of the homeowners and lease holders (if a rental property) in an area wish to implement the program, then a Residential Parking Zone can be established.

Suppose I Have a Guest or Visitors?

- All you need is the tag numbers of all guests and visitors.
- They can be registered automatically, online, over the telephone or in person during normal business hours.

What if I have more than one vehicle?

After you have registered one vehicle, you have established an account. Additional vehicles registered to that address can easily be added by applying online or by telephone.

If My Community Agrees, What is the Process For Registering Our Vehicles?

You will be able to register your vehicle:

- Online
- By Phone
- In Person, at our office
