Prince George's County Announces Upcoming Procurement Opportunities for the Prince George's County Regional Medical Center

Dimensions Healthcare System with the University of Maryland Medical System, the State of Maryland, and Prince George's County recently announcement the development of the new Regional Medical Center in Prince George's County.

To that end, while the project is not owned by the County and is officially under the University of Maryland's Medical System (UMMS), the County is working closely to bring the vendor community up to date information on upcoming procurement opportunities.

The Office of Central Services' Contract Administration and Procurement Division along with our Supplier Development Diversity Division will provide information on their sites and vendors are encouraged to visit our website frequently for details.

UMMS recently released information asking qualified Construction firms to register for the Regional Medical Center project.

Please visit the link below and read the Dimensions Health form thoroughly before submitting.

<http://www.dimensionshealth.org/regionalmedcenter/vendors.html>

Should firms have questions, the necessary contact information is below.

We also have included the links to the Request for Qualifications and a Project Overview.
