UMMS, in partnership with the UM School of Medicine, will be the premier healthcare system serving Maryland and the region and a national model for the integrated delivery of healthcare.

UMMS will be distinguished by:

- Our focus on the healthcare needs of Maryland and the region and providing access to world class care
- Patient centered care through highest quality and service excellence
- Innovative and cutting edge medicine supported by School of Medicine research and advanced technology
- The education of Maryland’s future healthcare professionals
- All provided in an efficient and affordable manner

“We heal, we teach, we discover, we care…”
