## GENERAL FUND REVENUE DISCUSSION

### Introduction

The revenue table that accompanies each revenue source compares three years of data. In every instance, the dollar and percent change are from the prior year actual or approved amount. (Numbers in this document may not add due to rounding.)

**REAL PROPERTY TAXES** are the taxes levied on both land and improvements of taxable real property. Taxes are levied annually and each quarter of the fiscal year as new properties are added to the base. Real Property Tax is the largest tax revenue of the County. The revenue yield is dependent on the following variables:

- The State's triennial assessment process
- Assessment growth caps for owner-occupied property (also called Homestead Tax Credit)
- The assessment percentage
- The housing market and the economy in general
- The tax rate including changes in the Municipal Tax Differential rates
- Delinquencies and the required reserves
- Appeals and adjustments in assessments
- State funding of State credits

The County is subject to the Tax Reform Initiative by Marylanders (TRIM). Based on this charter provision, the General Fund County Real Property Tax rate could not exceed \$2.40 per \$100 of assessable value before FY 2002 and cannot exceed \$0.96 per \$100 of assessable value since FY 2002, when the real property assessable value was adjusted from 40% to 100% of market value. In 2012, the Maryland Senate passed Bill 848 that provides for the property tax rate to be set higher than the rate authorized under the County's charter. Any additional revenue generated as a result of the higher property tax rate is for the sole purpose of funding the approved budget of the local school board. The Real Property Tax rate increased from \$0.96 to \$1.00 per \$100 of assessable value in FY 2016. The additional revenues generated from the \$0.04 increase is dedicated to support the local school board.

In FY 2020, the County's Real Property Tax revenues are projected to be \$855.7 million, an increase of \$36.3 million or 4.4% over the FY 2019 budget. The projection is based on the tax rate, tax base and adjustments made to factor in reductions due to the homestead tax credit, municipal tax differential, delinquent tax payments and incremental tax revenues from Tax Increment Financing (TIF) districts that are designated for debt service. Additionally, the projection factors in an anticipated \$10.9 million of revenues to be generated from the MGM Casino at National Harbor.

REAL PROPERTY TAXES (\$ in thousands)				
	FY 2018 ACTUAL	FY 2019 APPROVED	FY 2019 ESTIMATED	FY 2020 PROPOSED
<b>YIELD</b>	\$778,403	\$825,753	\$819,438	\$855,730
<b>\$ CHG</b>	37,418	47,350	41,035	29,977
<b>% CHG</b>	5.0%	6.1%	5.3%	3.6%

Excluding the dedicated revenue assigned to the Prince George's County Public Schools (PGCPS) system, the County's real property tax revenues are projected to increase by \$34.9 million or 3.6% in FY 2020 above the FY 2019 budget.

The State Department of Assessments and Taxation (SDAT) projected in February 2019 that the County's real property base will grow by 4.9% in FY 2020 before the homestead tax credit cap and other deductions. Net taxable base including adjustments and credits is projected to increase by 3.9% from the FY 2019 estimated level.

Each year, one third of each County’s real property base is reassessed by the SDAT. The reassessment growth is phased in over the next three years; a decrease, however, is realized immediately. The upward reassessment experienced by the County in the previous fiscal year is expected to continue in FY 2020, with Group 1 of the County’s real property base’s reassessment value rising by 16.8%, according to the SDAT.

The County's real property tax revenue capacity is not fully realized due to the structure of the County's Homestead Tax Credit. The credit, tied to the Consumer Price Index growth for the 12 months ending in June, caps the growth of owner-occupied property assessment for tax purposes at 3% in FY 2020. According to the SDAT’s estimate, this tax credit is estimated to cause a County revenue loss of approximately \$8.8 million in FY 2020.

The municipal tax differential also reduces the County’s property tax revenues. Each year, the County reduces its property tax rates (both real and personal) to recognize governmental services and programs that municipal governments perform in lieu of similar County services, to the extent that such services are funded through property tax revenues. In FY 2020, County real property tax revenue is reduced by \$30.6 million for the municipal tax differential program, compared with \$28.3 million in FY 2019. FY 2020 marks the fourth time in the last seven years of the program that the value of the credit increased year-over-year. This is due to the rise in assessable value within the municipalities and the resultant expansion of municipal services.

**PERSONAL PROPERTY TAXES** are the taxes levied on tangible personal property and commercial and manufacturing inventory of businesses. The assessment is made annually at fair market value and determined from annual reports filed with the SDAT.

The Personal Property Tax base is influenced by the:

- Business cycle
- Availability of commercial credit
- Public utilities' income performance
- Replacement of equipment
- The State law on personal property assessment and depreciation

- Tax rate including changes in the Municipal Tax Differential rates

In accordance with State law, the County’s Personal Property Tax rate shall be no more than 2.5 times the rate for real property. The Personal Property Tax rate increased from \$2.40 to \$2.50 per \$100 of assessable value in FY 2016, to align with the approved change in the Real Property Tax rate. The additional revenue generated as a result of the higher property tax rate is for the sole purpose of funding the approved budget of the local school board.

The FY 2020 Personal Property Tax revenue is expected to increase by \$1.8 million or 2.0% from the FY 2018 budget, based on the SDAT’s February 2019 projections of the assessable base. The projection includes anticipated revenue of \$1.6 million from the MGM Casino at National Harbor. Excluding the additional revenue assigned to the PGCPS system, the County’s personal property tax revenues are projected to increase by \$1.7 million or 2.0% in FY 2020 from the FY 2019 budget.

PERSONAL PROPERTY TAXES				
(\$ in thousands)				
	FY 2018 ACTUAL	FY 2019 APPROVED	FY 2019 ESTIMATED	FY 2020 PROPOSED
<b>YIELD</b>	\$83,072	\$88,180	\$88,180	\$89,943
<b>\$ CHG</b>	-3,128	5,107	5,107	1,764
<b>% CHG</b>	-3.6%	6.1%	6.1%	2.0%

The tax base has grown slowly in the past few years. Similar to real property revenue, the loss of Personal Property Tax revenues due to the municipal tax differential

program increased for some years because of expanding municipal services (such as police patrol, public works, etc.) until FY 2012, when tax differential credits started to decrease.

**INDIVIDUAL INCOME TAXES** are distributions made by the Maryland Comptroller's Office for the local tax on individual income. The State distributes the taxes to the County on a quarterly basis based on withholdings, declarations and estimated returns filed by employers and taxpayers. The State distributions are net of reserves for refunds, administrative costs, unallocated taxes (taxes for which no return has been filed) and municipal corporation shares. Municipalities receive a share of their residents' local income tax liability based on the greatest of 8.5% of the State income tax liability, 17% of the county income tax liability or 0.37% of the Maryland taxable income of municipal residents. Tax tables are usually adjusted at the beginning of the calendar year when any tax law changes take effect.

The following variables influence the annual tax yield:

- County income tax rate
- Economy
- Federal and State tax changes
- Employment growth
- Population growth
- The share to municipal governments
- Other State distribution policy changes
- Taxpayer behavior
- Capital gains realization rates
- Disparity Grant

The County's income tax revenue includes both income tax receipts and a State Income Disparity Grant. FY 2020 income tax receipts are projected to total \$627.5 million, an increase by 4.5% from the FY 2019 budget. The increase is due to changes in the Federal income tax laws passed in 2018 and a potential improvement in the County's labor market. FY 2018 income tax projections also include estimated gains from the General Assembly's adjustments of income tax exemptions that became effective January 1, 2012.

<b>% CHG</b>	2.2%	6.0%	0.0%	4.6%

As a result, both current year receipts and the reconciliation amount for prior years are expected to increase in FY 2019 and FY 2020. Baseline income tax growth (excluding one-time impacts) in FY 2019 is expected to reach 4.0%, close to the historical average level, assuming a continued recovery in the local job market and regional economy.

According to the Maryland Department of Labor, Licensing and Regulation, the County's average unemployment rate increased from 4.1% in calendar year 2017 to 4.6% in calendar year 2018.

In FY 2020, the County's State Income Disparity Grant is projected to be \$36.2 million, an increase of \$2.1 million or 6.2% from the FY 2019 budget. This grant is provided to counties where per capita local income tax revenue falls below 75% of the State average. The FY 2020 disparity grant is calculated by the State Department of Budget and Management based on calendar year 2017 income and population data.

**TRANSFER TAXES** are taxes imposed upon recordation of instruments conveying title to real property, or any other interest in real property. All transfer tax revenue is dedi-

cated to the Board of Education. The tax rate is unchanged at 1.4% for FY 2020.

**RECORDATION TAXES** are taxes on the recordation of written instruments conveying title to real or personal property, conveying leasehold interests in real property or creating liens and encumbrances on real or personal property. In FY 2020, the recordation tax rate is unchanged at \$2.75 per \$500 of instrument of writing subject to this tax.

Transfer and recordation taxes are usually the most volatile major revenue source for the County due to the strong correlation between the revenue collection and the activity of the local housing market. The variables influencing Transfer and Recordation Taxes include:

- Tax rate
- Business cycle
- Interest rates
- Availability of credit
- Real estate market

TRANSFER AND RECORDATION TAXES (\$ in thousands)

<b>% CHG</b>	22.1%	-8.2%	-10.0%	1.0%

In FY 2020, transfer taxes are projected to increase by 1.0% from the FY 2019 budget, as the housing market shows stable but steady improvements from previous years. Recordation taxes are also projected to increase by 1.0%, compared to the FY 2019 budget.

Reports from the Metropolitan Regional Information Systems, Inc. indicate that the County’s median home sales price in 2018 increased by 4.1% from 2017 and reached \$286,100. Sales volume decreased by 2.6% in the same period.

As of the fourth quarter in 2018, a total of 6,100 foreclosures occurred in the County, a decrease of 5.7% from the same period in 2017. However, the County accounts for the largest number of foreclosures in the State. The large number of foreclosures in the judicial process and anticipated increase in mortgage rates are expected to slow but not halt the recent recovery in the County’s housing market.

**OTHER LOCAL TAXES** include Energy Taxes, Telecommunications Taxes, Hotel/Motel Taxes, Admissions and Amusement Taxes, Penalties and Interest on Delinquent Taxes, and Trailer Camp Taxes.

<b>\$ CHG</b>	202	3,455	2,342	-775
<b>% CHG</b>	0.7%	12.1%	8.2%	-2.4%

In FY 2020, the total revenue from Other Local Taxes is expected to decrease by 2.4% from the FY 2019 budget, primarily due to decreases in Telecommunications and Penalties and Interest on Delinquent Taxes.

The Energy Tax comprises over half of the total FY 2020 revenue in this category. This revenue is projected to increase by 8.8% in FY 2020. Among the different energy tax components, two thirds of the tax receipts are from

the sale of electricity and approximately one third of the receipts are from the sale of natural gas.

ENERGY TAXES (\$ in thousands)

<b>% CHG</b>	7.1%	-6.0%	-6.0%	8.8%

The Energy Tax unit rates for a certain fiscal year are determined by the total consumption and sales of the calendar year two years prior to that fiscal year. For example, the FY 2020 rates are based upon calendar year 2018 data. The formula divides total calendar year 2017 sales (by type of energy used) by total 2018 consumption, which is then multiplied by 7.5%, the current effective tax rate, to arrive at the FY 2020-unit charge per kilowatt hour, thermal, gallon or other unit. The FY 2020 rates compared to FY 2019 are shown here:

ENERGY TAX COMPONENTS			
	FY 2019 Rates	FY 2020 Rates	% Change
<b>Electricity (KWH)</b>	0.009900	0.009690	-2%
<b>Natural Gas (Therm)</b>	0.084949	0.055648	-34%
<b>Fuel Oil (Gal.)</b>	0.200849	0.228802	14%
<b>Propane (Gal)</b>	0.212657	0.171262	-19%

Fluctuations in energy usage due to weather conditions and price instability of fuels such as natural gas and oil can cause major deviations in rates between fiscal years. Rate changes granted to the major utilities by the Public Service Commission also influence the yield from this revenue source.

The law exempts energy tax payment for Federal, State and local governments and provides a refund for certain qualifying residents based on income, age and other criteria. The entire Energy Tax is earmarked for the Board of Education.

Another major revenue item is the Telecommunications Tax, which represents 17.6% of the FY 2020 proposed revenues generated by “Other Local Taxes.” The telecommunication tax revenue has been declining for nine years in a row due to a market shift from landlines to wireless services (some of which are non-taxable). In FY 2016, the telecommunications tax rate was increased to 9% on the gross receipts for telecommunication service in the County. The FY 2020 projection reflects a decrease of \$4.3 million or 15.4% below the FY 2019 budget.

TELECOMMUNICATIONS TAXES (\$ in thousands)

<b>% CHG</b>	-17.5%	15.1%	5.9%	-15.4%

The State mandated that the net proceeds of this tax be used only for expenditures of the County's school system. An administrative fee of one percent of collections remitted to the County is shared equally between vendors and the County to cover the cost of collecting, remitting and administering the tax.

Starting in FY 2005, the County started implementing the provisions of Chapter 187 of the 2004 Laws of Maryland (HB 589) that authorized the County to utilize up to 10% of the net proceeds from the Telecommunications Tax for school renovation and systemic replacement projects. As a result, the Telecommunications Tax revenue in the general fund does not include the up to 10% of receipts dedicated for capital budget expenditures.

In FY 2020, Hotel/Motel Taxes are expected to decrease by \$0.9 million under the FY 2019 budget. The decrease is based on year-to-date collections. The FY 2020 proposed budget includes \$0.7 million of collections from the MGM facility. This is net any hotel collections dedication to the Special Taxing District to fund bonds issued for infrastructure and the convention center. In FY 2016, the Hotel/Motel Tax rate increased from 5% to 7%.

Municipalities will receive 50% of the revenue received from hotels located within their corporate limits. Occupancy and average room rates are expected to continue to increase in FY 2020.

Admissions and Amusement Taxes are projected to increase by 2.8% over the FY 2019 budget. The FY 2020 budget includes anticipated collections of \$2.0 million from the MGM Casino at the National Harbor. The Admissions and Amusement Tax rate will remain at 10%.

**STATE SHARED TAXES** consist of highway user and corporate transfer taxes that are shared between the State and the County.

State-Shared Taxes, primarily Highway User Revenue, used to be one of the major resources of the County. In FY 2009, the County received \$24.8 million in highway user revenues. Since then, this revenue source has experienced severe reductions each year, until it stabilized at \$2.6 million in FY 2013. In the proposed FY 2020 budget, Highway User Revenues are projected to reach \$3.1 million, an increase of 3.2% from the FY 2019 budget. The highway user revenues are restricted State monies and can only be used to construct or maintain roads, including payment of road debt.

**LICENSES AND PERMITS** include revenue derived from a number of licenses and permits issued for regulatory purposes. They include Building Permits, Street Use Permits, Business Licenses, Liquor Licenses and Permits (authorized by the State), Animal Licenses, Health Permits and various other permits. This category also reflects video lottery terminal and table game revenues generated from the MGM at National Harbor facility.

The largest portion of these revenues is related to the building sector of the economy, and as such is subject to year-to-year changes as the amount of construction in the County varies. In FY 2020, revenues generated by building, grading and street use and other permits are projected to increase by \$6.0 million or 10.2% from the FY 2019 budget to \$64.7 million.

Gaming Revenues are expected to increase by 17.3% from the FY 2019 budget. The FY 2020 budget includes \$26.3 million of video lottery terminal (VLT) and table games revenues to be generated from over 3,000 video lottery terminals and 160 tables at the MGM Casino at National Harbor. The FY 2019 estimate is expected to be \$23.9 million, an 4.1% increase from the FY 2018 unaudited level. In accordance to State law 40% of VLT taxes are restricted for Maryland route 210 improvements. The remaining 60% of VLT taxes are restricted for improvements in the immediate proximity of the MGM Casino.

**USE OF MONEY AND PROPERTY** includes revenue derived from the investment of available County cash and the lease of certain County owned or leased properties. Most of the County’s available cash is invested in short-term vehicles in the money market. A smaller portion is for intermediate term investments.

<b>% CHG</b>	398.9%	-73.4%	-30.8%	193.1%

In FY 2020, receipts from Use of Money and Property will total \$9.0 million, an increase of \$5.9 million from the FY 2010 budget. Interest income is the largest component of this category. In FY 2020, interest income is estimated to total \$6.9 million, which is an increase of \$5.9 from the FY 2019 budget.

**CHARGES FOR SERVICES** are typically known as user fees. These include fees from tax collection services provided to various agencies for whom the County levies taxes, animal control charges such as fines and user fees related to the County shelter and animal control services, fees and charges levied by the Health Department for health-related services, Cable Franchise Charges from cable providers, the 9-1-1 fee allocated to the 9-1-1 emergency system costs, emergency transportation fee, and contractual police service fees for additional police services for events and entities.

<b>\$ CHG</b>	2,030	-1,328	-1,328	2,945
<b>% CHG</b>	4.1%	-2.6%	-2.6%	5.9%

In FY 2020, Charges for Services are expected to increase by 5.9% from the FY 2019 budget. The increase is primarily due to an increase in Emergency Transportation, Cable Franchise and Health Fees. Other Service Charges are expected to increase by 2.5%.

**INTERGOVERNMENTAL REVENUES** include State restricted grants, transfers and reimbursement from the Maryland-National Capital Park and Planning Commission (M-NCPPC) for service provided by the County, along with a small portion of federal monies related to emergency preparedness.

INTERGOVERNMENTAL REVENUES

<b>\$ CHG</b>	-12,697	1,409	1,409	-808
<b>% CHG</b>	-26.8%	4.1%	4.1%	-2.2%

Intergovernmental Revenues are anticipated to decrease by 2.2% under the FY 2019 budget in FY 2020. This is primarily due to an increase in project charges from Maryland-National Capital of Park and Planning Commission.

The County will continue to receive \$9.6 million in a Teacher Retirement Supplemental Grant from the State to partially offset the estimated \$36.5 million impact of the phased-in cost sharing of teachers’ pension costs that started in FY 2013. The Police Aid Grant is projected to be \$11.2 million in FY 2020, the same funding received in FY 2019 budget. Federal grants are expected to increase by 2.1% from the FY 2019 budget level.

**MISCELLANEOUS RECEIPTS** are used to encompass a number of relatively smaller County revenues. The principal sources are fines and forfeitures primarily from red light cameras and speed cameras programs.

MISCELLANEOUS RECEIPTS

<b>% CHG</b>	-5.1%	17.6%	3.2%	-13.5%

Total miscellaneous receipts are projected to decrease by 13.5% in FY 2020. In FY 2012, the County started implementing an Automated Speed Enforcement (ASE) program to help reduce speed-related traffic accidents. The program took a phase-in approach and 72 speed cameras installed. The ASE program is estimated to provide \$6.9 million gross revenues in FY 2020, a decrease of

4.2% below the FY 2019 budget. The revenues generated from red light camera program is expected to be \$6.3 million a 23.6% decrease from the FY 2019 budget. These totals are before excluding payments to vendors and administrative costs. Fines per camera have experienced a significant decrease in the past several months as road commuters have changed their behavior.

**OTHER FINANCING SOURCES** include use of fund balance and transfers-in from other County funds.

In FY 2020, other financing sources total \$34.2 million, an increase of \$0.2 million or 0.6% over the FY 2019 budget. This funding includes a \$33.6 million transfer from Fund Balance and \$0.6 million transfer from the Stadium Impact Grant fund. The \$33.6 million transfer from Fund Balance reflects \$20.0 million allocation to the Maryland Purple Line capital project, \$5.0 million to the support the new Regional Medical Hospital, \$4.1 million for Certificate of Participation payment, \$2.5 million for Hampton Park economic development project and \$2.0 million for the Redevelopment Authority capital projects.

The County will maintain the Charter mandated 5% (restricted) reserve and fiscal policy required 2% (committed) reserve in FY 2019 and FY 2020.

**BOARD OF EDUCATION SOURCES** are expected to increase by 1.7% in FY 2020 from the FY 2019 budget. State aid, which is the major source of outside aid to the Board of Education, is 1.9% over the FY 2019 budget. Federal aid is projected to remain unchanged from the FY 2019 budget. The Board’s own sources are expected to increase by \$0.4 million or .09%, primarily due to the increase in the Board’s Use of Fund Balance.

State aid for Community College is expected to increase 5.9% to \$31.2 million in FY 2020. Tuition and fees are projected to increase by 1.7%. The College is expected to receive \$0.7 million project charges from the M-NCPPC in FY 2020, unchanged from the FY 2019 budget. The FY 2020 budget also includes \$5.8 million use of fund balance of the College, compared to \$2.6 million in its FY 2019 budget.

**SUMMARY:** In FY 2020, the County's General Fund revenues total \$3.54 billion, a projected increase of \$104.9 million or 3.0% over the FY 2019 budget. Excluding other financing sources, General Fund revenues increase by \$104.0 million or 3.1% in FY 2019. The increase is primarily due to the growth in property taxes, income tax, license and permit revenues, use of money and property and charges for services.

The County's outlook has improved modestly and remains stable. However, the County continues to face risks from high foreclosure activity and rising interest rates. The job market has experienced continued gains and the housing market has stabilized. However, given the uncertainties and structural imbalances at the Federal and State government levels, the County could be exposed to potential negative impacts as these issues are addressed by the Federal and State governments.

## PROPERTY TAX LIMITATION FISCAL YEAR 2020

At the 1978 general election, the voters of the County adopted an amendment to Section 817, Article VIII, of the Prince George’s County Charter limiting future collections of real property taxes. The amendment, which became effective in December 1978, added Section 817B to the Charter. It is generally referred to in the County as “TRIM” (TRIM is an acronym for “Tax Reform Initiative by Marylanders”). The amendment forbade the County Council to “levy a real property tax which would result in a total collection of real property taxes greater than the amount collected in FY 1979,” or \$143.9 million. At the 1984 general election, an amendment to TRIM was approved by the voters of the County authorizing the County Council to levy taxes on a maximum rate of \$2.40 for each \$100 of assessed value. The County passed legislation capping taxable assessment growth in FY 1994 and future years for owner occupied residences at the lesser of the change in the Consumer Price Index (CPI) or 5% of the prior year’s taxable assessment. For FY 2019, the cap is set at 3%. This limitation is a charter mandated computation passed by the voters in November 1994 and is permitted by the Tax Property Article, Section 9-105 of the Annotated Code of Maryland.

In 2000, Maryland Senate Bill 626 provided that beginning in tax year 2001, property tax rates shall be applied to 100%, instead of 40%, of the value of real property, and that the real property tax rate be adjusted to make the impact revenue neutral. The bill also stipulated that any limit on a local real property tax rate in a local law or charter provision shall be constructed to mean a rate equal to 40% times the rate stated in the local law or charter provision. As a result, the nominal real property rate of the County was adjusted to \$0.96/\$100 of assessed value in FY 2002. In 2012, Maryland Senate Bill 848 provided, under certain circumstances, for the property tax rate to be set higher than the rate authorized under the County’s charter. Additional revenue as a result of the increase in the property tax rate is for the sole purpose of funding the approved budget of the local school board. The proposed FY 2020 Budget sets the County’s nominal real property rate at \$1.00/\$100 of assessed value.

## CONSTANT YIELD DATA

The real property tax rates for municipalities and the unincorporated area of the County are detailed below, along with the constant yield tax rates as certified by the State Department of Assessments and Taxation. In accordance with Title 6, Subtitle 6-308 of the Tax-Property Article of the Annotated Code of Maryland, a rate which exceeds the constant yield rate is subject to certain advertising and public hearing requirements. Per Chapter 80, Acts of 2000 (Senate Bill 626), the real property tax rate was adjusted to reflect the conversion to full value assessments of real property, effective October 1, 2000. Starting from February 2001, personal property has been excluded from the constant yield tax rate as reported by the State Department of Assessments and Taxation. The personal property tax rate shall be no more than 2.5 times the rate on real property.

## MUNICIPAL TAX DIFFERENTIAL

### Program Information

The Tax Property Article of the Annotated Code of Maryland (Title 6, Subtitle 6-305) mandates that the County recognize, through either a reduced County tax rate or direct grant payment, those governmental services and programs that municipal governments perform in lieu of similar County services, to the extent that these similar services are funded through the property tax rate.

### Financial Summary

Under the provisions of Title 17, Subtitle 10, Division 6, of the Public Local Laws of Prince George's County, each town's cost of each service identified in the prior-year County budget is assigned a tax rate equivalency value after adjustments are made to offset revenue directly allocable to a specific service. The aggregate town requests for "in lieu of" service credit, as certified by the County, are translated into a dollar value, which is the sum of the products of the tax rate equivalent cost of the service multiplied by each town's tax base. Each of these net service values is then reduced to reflect the portion of levy. The sum of the tax rate values of the services constitutes the tax rate differential accruing to each town, i.e., the amount by which the County unincorporated area property tax rate will be reduced in each respective town.

Beginning with FY 1999, County legislation set a five-year rolling average for changes in municipal differential rates. Beginning in FY 2004 and each year thereafter, this changed to a three-year rolling average. The purpose of this modification is to provide stability to municipal residents' County tax rates, smoothing what could otherwise be a large rate change that could be triggered by a reorganization of County services, economic fluctuations, changes in municipal service levels or other factors.

In 2000, Chapter 80, Acts of 2000 (Senate Bill 626) provided that, beginning in FY 2001, property tax rates shall be applied to 100% of the market value of real property, rather than the 40% for most real property under previous law. Also, the law mandates that the County real property tax rates and municipal tax differentials be adjusted to make the impact revenue neutral. As a result, starting from FY 2002, a separate real property tax rate and a separate personal property rate have been applied. Also a real property tax differential and a separate personal property tax differential have been applied, in accordance with State law and County code (CB-1-2001).
