

Scan for Eligible FSA and HSA Purchases with the myCYC® mobile app

The ConnectYourCare Marketplace has everything consumers need to maximize their Health Savings Accounts (HSAs), Flexible Spending Accounts (FSAs), and other tax-advantaged employee benefits. Now, we're connecting consumers with eligible medical items even faster, through the myCYC® mobile experience.

ConnectYourCare is rolling out an exciting new feature that will enable consumers to scan product barcodes with their phones, to determine if items are eligible for HSA and FSA reimbursement, under IRS 213(d) guidelines.

No need for second guessing...

No need for time-consuming research...

...And no more worries about rejected claims!

Whether at the pharmacy or grocery store, consumers can simply scan items and our mobile app will instantaneously determine eligibility.

Common Eligible Expense Examples

There are hundreds of eligible expenses for tax-free purchase with FSA and HSA account funds, including (but not limited to):

- Eye glasses and reading glasses
- Contact lenses and related materials
- Sunscreen (SPF 15+)
- Bandages and wraps
- Over-the-counter cold treatments and pain relievers*
- Medical testing devices
- Wheelchairs, walkers, crutches, and canes
- Smoking cessation programs and medications*

* Many over-the-counter treatments may require a prescription, letter of medical necessity, or doctor's directive.
