

## NOTICE

### Licenses and Permits Expiration Dates Extended

In accordance with the March 12, 2020 “Order of the Governor of the State of Maryland Extending Certain Licenses, Permits, Registrations, and Other Governmental Authorizations, and Authorizing Suspension of Legal Time Requirements,” **the expiration date of certain licenses, permits, registrations, or other authorizations issued by the Department of Permitting, Inspections and Enforcement (DPIE) is hereby extended** to the 30th day after the Governor’s termination of the current state of emergency and catastrophic health emergency. This automatic extension applies to any license, permit, registration, or other authorization that would otherwise expire during the state of emergency and that would otherwise be renewable under applicable laws and regulations. The automatic extension also includes permit applications that would expire during the state of emergency.

Under the Order, the new expiration date of any affected license, permit, registration, or authorization will be dependent on action taken by the Governor and cannot be precisely determined at this time. However, once the Governor has terminated the state of emergency and rescinded the catastrophic health emergency, DPIE will post the new expiration date on this website.

In the meantime, all parties are encouraged to use [DPIE’s online services](#) to renew licenses, permits, registrations, and other authorizations during this period of modified operations. For questions, please contact 301-636-2050<sup>📞</sup> or e-mail the following:
