

NOTICE:
**DPIE Mandates Electronic Permitting Submittals
through ePlan System for Retaining Walls**

Effective Wednesday, April 15, 2020, Building Permit applications for retaining walls must be submitted through ePlan system. The only exception to this requirement is for walk-thru retaining wall permits. Retaining walls not greater than 4'6" in height, grade to top of the wall, typically will qualify for the walk-thru review process.

Access the DPIE [online permitting portal](#).

For more information about using ePlan, you may download the [ePlan User Guides](#).

For more information about [retaining walls](#), access the DPIE website.
