

DPIE Staff Uses Masks, Distancing and Technology to Continue Services During the Pandemic

Permitting and Licensing

Licensing Supervisor Heidi Stearlings and other members of the Permitting and Licensing Division have ensured that licenses and permits continue to be issued.

Employees are working from home using updated technology. Implementation of the Momentum online system is facilitating business and rental license application submission, document upload and fee payment. It also allows customers to print out the licenses once applications have been reviewed and approved. Permitting staff are working on as many as 120 permit applications daily. Plan review and other tasks also continue.
