**NOTICE
PREVAILING WAGE SURVEY**

June 20, 2021

The Prince George's County ("County") Wage Determination Board is responsible under Division 14 of the County Code for establishing schedules of prevailing hourly wage rates to be paid to workers employed on County public works construction projects. An important item that the Board uses in the determination of a prevailing wage is wage data voluntarily submitted by:

1. Employers performing construction work within Prince George's County,
2. Employer associations whose members perform construction work in Prince George's County; and
3. Labor organizations representing employees who perform such work.

The County Wage Determination Board needs your assistance as we conduct our annual wage survey, in order to establish the new Prevailing Wage Rates for employees of contractors performing public building and highway construction work on behalf of the County. The survey is being conducted based upon wages paid *for construction work performed within the County during the period from April 16, 2020 through April 15, 2021*. Along with the survey, please find the Classification Listing (which includes new classifications) for your convenient reference. Should you know of employers or labor organizations that wish to participate in the survey, please direct them to the Wage Determination Board weblink: <https://www.princegeorgescountymd.gov/556/Wage-Determination-Board> to access the survey electronically.

PLEASE NOTE: ONLY PRINCE GEORGE'S COUNTY WAGE DETERMINATION BOARD FORMS THAT ARE FULLY COMPLETED, DATED AND SIGNED WILL BE ACCEPTED FOR THE SURVEY. INFORMATION SUBMITTED ON DAVIS-BACON ACT (FEDERAL) FORMS, STATE OF MARYLAND FORMS, OR ANY OTHER SIMILAR TYPE OF FORM WILL NOT BE CONSIDERED.

The survey will be open for responses from June 20th to July 31st annually. Survey responses will no longer be accepted by mail; therefore, all responses must be submitted by email. **Completed forms must be emailed to the Wage Determination Board at prevailingwage@co.pg.md.us no later than July 31, 2021** to be used in the computation of the prevailing wage rates scheduled to become effective sometime in December 2021.
