

# GREAT HEALTH STARTS WITH GREAT DOCTORS

Permanente physicians and specialists make Top Docs lists every year<sup>1</sup>

## WHEN YOU NEED SPECIALTY CARE, YOU'RE NOT ON YOUR OWN

Our members have access to board-certified doctors in over 50 specialties and services. This helps you get the diagnosis, treatment, and services you need—right now. You save the time and stress of finding specialists, waiting to see them, and worrying if they accept your insurance. And you won't bounce around to different specialists, repeating the process all over.

## We make it easier for you to see a specialist, often within 24 hours, because your care team works together

Our integrated system helps you get the right diagnosis, so you get to treatment faster. As your advocate, your doctor can discuss specialty care options with you, recommend the right Permanente specialist for you, and connect with them by phone, text, or video—often within 24 hours. Then if you need to see the specialist in person, your doctor will set up your appointment, usually within a day or two.

For ob-gyn and optometry, you can simply call for an appointment or book online. The same goes for initial behavioral health consultations (except inpatient care). And you always have the freedom to choose your doctors and change anytime.

We pioneered how an integrated care delivery system, with its own specialists and multidisciplinary care teams, can prevent disease and provide quality care. Every day, we commit to early detection, cutting-edge research, and individualized and evidence-based care delivered with compassion.

Meet some of our doctors and hear for yourself how it all comes together: [kp.org/excellence/mas](https://www.kp.org/excellence/mas).

# Our doctors practice in more than 50 medical and surgical specialties

Permanente specialists in their fields, and work with your doctor and others to diagnose your condition and help you decide on the best course of care, whether you have a broken bone, are facing a new diagnosis, or are dealing with an ongoing condition. Hundreds recognized as Top Doctors in major local publications.<sup>1</sup> Discover more about our doctors at [kp.org/doctor](https://kp.org/doctor).
