

Your CALL TO ACTION TAKE THE PLEDGE

We challenge all Prince Georgians to partner with the campaign and make an effort to adopt at least one new activity that will help increase the cleanliness and beauty of the County. Did you know that adopting at least one new habit and practicing it every day can benefit the environment for generations? Even picking up one piece of litter makes a difference if we all do it.

Here are some easy actions you can take right now:

Cutting down on your carbon footprint:

- Use public transportation
- Bike or walk to your destination
- Shop locally

Making some changes around the house:

- Unplug chargers and appliances when not in use
- Wash your laundry in cold water
- Make your own cleaning products
- Switch to energy-efficient light bulbs

Shopping sustainably:

- Shop with your own reusable bags
- Say no to receipts
- Buy bulk foods rather than individually packaged goods

Taking up a green hobby:

- Start a produce or herb garden
- Landscape with native plants
- Join an environmental group
- Organize community cleanups
