

Glenarden Apartments

The Landover Gateway Sector Plan envisions the Glenarden Apartments site as a new mixed use, mixed income community. Once the existing vacant buildings have been demolished, a complete redevelopment is proposed with affordable for sale townhouses and senior housing complimented by market rate housing and 25,000 square feet of commercial/retail space. Demolition is scheduled to begin in the fall of 2014 with the new construction starting in 2016.
