STOP THE SILENCE

STOP THE SILENCE

Domestic and family violence is abusive behavior by one person to control and dominate another person within a close relationship. It may include physical assault, psychological abuse, social abuse, economic abuse or emotional abuse.

The damaging effects of violence are profound. There are studies that indicate children raised in violent homes are likely to repeat such acts as adults leading to a destructive pattern often referred to as “the cycle of abuse.”

This pamphlet provides information and resources to assist in finding a safe way out of an abusive environment.
