ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION IN FT. (NGVD)[1]	DESCRIPTION OF LOCATION
RM 5	141.78	Brass bolt and washer on south wing wall at east end of Powder Mill Road bridge over Paint Branch.
RM 6	116.89	Chiseled square cut on west end of south headwall of 4-cell culvert under southbound Interstate 95 at Paint Branch.
RM 7	89.53	Chiseled square cut on southwest corner of south approach wall of State Route 193 bridge over Paint Branch.
RM 8	199.65	Brass bolt and washer in concrete headwall at west end of Briggs Chaney Road bridge over Little Paint Branch.
RM 9	136.81	Top of most easterly bolt of south tire rail of Sellman Road bridge over Little Paint Branch.
RM 10	102.69	Brass bolt and washer in concrete sidewalk on southwest corner of Cherry Hill Road bridge over Little Paint Branch.
RM 11	159.20	Cross cut on north rim of manhole, approximately 50 feet southeast of intersection of Indian Creek and Ammendale Road.
RM 12	124.81	Chiseled square cut on top of southeast wing wall of US route 1 bridge over Indian Creek.
RM 13	83.59	Chiseled square cut on southeast corner of wing wall of Sunnyside Avenue bridge over Indian Creek.
RM 14	63.94	Chiseled square cut on northwest corner of south parapet wall of Branchville Road bridge over Indian Creek.
RM 15	169.39	Chiseled square cut on northeast corner of south headwall of Virginia Manor Road bridge at Ammendale Branch.
RM 16	138.31	Chiseled square cut on southeast corner of old light foundation, approximately 20 feet southeast of abandoned railroad crossing, and approximately 400 feet south of Ammendale Road.

*EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
AO	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas. The community map repository should be consulted for possible updated flood hazard information prior to use of this map for property purchase or construction purposes.

Coastal base flood elevations apply only landward of 0.0 NGVD, and include the effects of wave action; these elevations may also differ significantly from those developed by the National Weather Service for hurricane evacuation planning.

Areas of special flood hazard (100-year flood) include Zones A, A1-A30, AH, AO, A99, V, and V1-V30.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures.

For adjoining map panels see separately printed Map Index.

INITIAL IDENTIFICATION:
AUGUST 4, 1972

FLOOD HAZARD BOUNDARY MAP REVISION:

NONE

FLOOD INSURANCE RATE MAP EFFECTIVE:
AUGUST 4, 1972

FLOOD INSURANCE RATE MAP REVISIONS:

July 1, 1974 - to change zone designations.

August 28, 1976 - to reflect cuvilinear flood boundaries, to add special flood hazard areas.

July 19, 1982 - to add base flood elevations, to change base flood elevations, to add special flood hazard areas.

June 18, 1987 - to change base flood elevations, to add special flood hazard areas, to change special flood hazard areas, to change zone designations, to add roads and road names, to reflect updated topographic information.

December 15, 1989 - to change base flood elevations, to change special flood hazard areas, to change zone designations, and to incorporate previously issued letters of map revision.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6620.
