SECTION III: SCOPE AND REQUIREMENTS

3.1 BACKGROUND

A. General Description of Government Entity

The Revenue Authority of Prince George's County ("RAPGC") is a body corporate and politic established under the authority of Maryland law passed in 1996. In 1997, the County Council of Prince George's County, Maryland (the "County") enacted legislation to create a separate entity whose purpose is to exercise its powers for projects within the boundary lines of the County devoted wholly or partially for public uses, good, or general welfare, and to stimulate employment and economic growth. The Authority is a component unit of the County. The Authority has seven board members and two ex-officio members. The County Executive appoints five board members and the County Council appoints two board members. The County Executive and County Council have oversight responsibility for approval of RAPGC's operating and capital improvement budgets.

B. Accounting and Audit Overview

The RAPGC is an enterprise fund and prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under this method, revenues are recognized when earned and expenses are recognized when incurred. The RAPGC applies all relevant Governmental Accounting Standards Board ("GASB") pronouncements.

The RAPGC distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the RAPGC ongoing operations. The principal operating revenues of the RAPGC are revenues generated from its parking operations. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The RAPGC fiscal year begins July 1.

C. Budgetary Basis of Accounting

The RAPGC prepares its budget on a basis other than principles generally accepted in the United States of America. Actual results of operations are presented in the financial report in accordance with legislative requirements.
