

## Revised Schedule for the Legislative Cycle of Amendments to the “2018 Water and Sewer Plan” September 2021 Legislative Cycle

### BULLETIN 2021-01

The Department of Permitting, Inspections and Enforcement (DPIE) is postponing the **September 2021 Legislative Cycle of Amendments** due to timing (reviews and processing) that will not allow for its legislative enactment within the specified 2021 Legislative Year. Applications received for the September 2021 Legislative Cycle will be held over to the December 2021 Legislative Cycle and enacted in the next Legislative Year.

The months for water and sewer category changes requiring legislative actions will remain **March, June, September and December**. This revision to the September 2021 Legislative Cycle does not affect the Administrative Cycles that are available throughout the year except for the months of August and December. The Administrative Cycles of Amendments are for projects eligible to advance from Category 4 to Category 3.

The next Legislative Cycle of Amendments for projects requesting to advance from Category 5 to Category 4 are due on **December 1, 2021**. Plan 2018 application forms provided by DPIE are required for all plan amendments, final plat reviews and residential waivers. DPIE application forms and the “Appendix 6-2 Fee Schedule” from the *2018 Water and Sewer Plan* may be found at: <https://md-princegeorgescounty.civicplus.com/1395/SiteRoad-Plan-Review-Forms-Checklists>

Please take a moment to review the application forms, fee schedule and processes as they relate to your specific project. For more information on the 2018 Water and Sewer Plan and its components, contact:
