

G-557, Rapid Needs Assessment Course

This course provides information and resources that will enable participants to plan an effective Damage Assessment Program and conduct rapid and effective damage assessments in order to save lives, protect property and the environment, and begin the process of recovery and mitigation. This course is especially valuable for local officials who are responsible for assessing, collecting, and reporting damages during and after any event that causes damage of private, public, and critical infrastructures.

Prerequisites:

- IS-100 Introduction to the Incident Command System
- IS-200 Incident Command System for Single Resources and Initial Action Incidents
- IS-700 National Incident Management System, An Introduction
- IS-800 National Response Framework, An Introduction
