

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

<b>General Order Number:</b> 05-30	<b>Effective Date:</b> September 7, 2018
<b>Division:</b> Emergency Medical	
<b>Chapter:</b> APEX EMS Supply Vending Machine and Surge Gear Locker	
<b>By Order of the Fire Chief:</b> Benjamin M. Barksdale	<b>Issue Date:</b> September 7, 2018

**POLICY**

This General Order establishes the policy and procedures for the access, security, and use of the APEX Supply vending machines and equipment lockers.

**DEFINITIONS**

**APEX** – Vendor for Edge 5000 (coil vending), multi-door locker, and 2-door surge gear locker.

**APEX Narcotics Safe** – Reference to the operative IQ narcotics tracking system, for the electronic location of narcotics in the hospital vending machines and/or ALS Surge gear.

**ALS Surge Locker** – 2-door APEX locker with an independent key pad.

**Battalion Vending** – Edge 5000 coiled vending machine and multi-door locker paired together with a single keypad, and used for the distribution of supplies, assets, and equipment. (Attachment #1 APEX Vending Machine & Locker Locations).

**Controlled Substance** – A drug or chemical substance whose possession and use are regulated under the Controlled Substances Act.

**Control Number** – A unique identifying number assigned to a narcotic medication for the purposes of tracking.

**DEA** – Federal Drug Enforcement Agency.

**Duty Chief** – Career Assistant Fire Chief on-duty as the shift commander for the Department.

**Edge 5000** – A coil based dispensing unit that contains a key pad and return slot.

**EMS Duty Officer (EMSDO)** – Emergency Medical Services Supervisor.

**EMS Logistics Coordinator** – Fire/EMS Department employee(s) responsible for EMS assets, equipment, and medications.

**ePCR** – Electronic Patient Care Report used by the Department to document patient care.

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

**Hospital Vending** – Stand-alone Edge 5000 coiled vending machines located at various hospitals for incident supply replacement. (Attachment #1 APEX Vending Machine & Locker Locations).

**Key Pad** – A numeric pad used for accessing the battalion vending, hospital vending, or ALS surge lockers.

**MedVault** – A pin coded access safe for the storage of narcotics. These safes are procured through the Knox Company and are being installed in all new ALS units and ALS surge lockers.

**Narcotic** – Term that can be used to describe a controlled substance.

**Narcotic Box** – A sealable box that stores multiple vials of narcotics and/or the EMS Duty Officer's field supplies of narcotics for restocking ALS equipped units.

**Narcotics Safe** – Term used to describe controlled substances, narcotics, or narcotic boxes that are not in custody of an Advanced Life Support Provider. These narcotics will be stored and secured in a specified location such as EMS Logistics Safe, Special Events Unit, or APEX Surge locker.

**Narcotics Tracking** – An electronic form of accountability for any controlled substance that is purchased by the Department.

**Personal Identification Number (PIN)** – Unique 4-digit number selected by the provider which is kept secure and confidential.

**Proximity (Proxy) Card** – An electronic card assigned to Fire/EMS Department Units.

**Provider** – An on-duty career or volunteer member of the Department.

**Return Slot** – An open slot on the coil vending machine that accepts the return of expired medication/equipment.

**Seal Tag** – A numeric tag applied to a narcotics box which creates a tamper proof seal.

**Session** – Process of obtaining items from an APEX machine. A maximum number (5) of transactions is allowed.

**Transaction** – The vending of a single position in the Edge 5000 or opening a single door in the multi-door locker.

# PRINCE GEORGE'S COUNTY, MARYLAND FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER

## PROCEDURES / RESPONSIBILITIES

### I. General Provisions

- A. The General Order identifies the procedures for the acquisition and distribution of supplies and equipment to Fire/EMS Department units.
- B. This General Order applies to all supplies and equipment stored in an APEX system (Attachment #4 Vending Supply Lists).
  1. Consumables – EMS equipment that is used on EMS incidents and requires replenishment to maintain unit readiness.
  2. Controlled Substance – Narcotics with a control number that will be dispensed on a 1-for-1 use only.
    - a) Dispensed narcotics must be documented appropriately in the ePCR and Narcotics Tracking System.
    - b) The provider accounts for dispensed narcotics in the narcotics tracking system.
    - c) APEX Vending controlled substances will not be used to replaced expired, damaged, lost, or stolen controlled substances.
  3. Assets – EMS equipment such as LP15s, Toughbooks, LP 1000 (AEDs), glucometers, IO Drills that are non-disposable.
  4. ALS Surge Equipment – A full set of advanced life support gear, that upgrades a BLS Transport unit into an ALS Transport unit.

### II. Accessibility/Accountability

- A. Access to the APEX System
  1. Levels of Access
    - a) BLS – Affiliated and active BLS providers have access to dispense BLS supplies and equipment.
    - b) ALS – Affiliated and active ALS providers have access to dispense all supplies and ALS Surge equipment.
    - c) Logistics – Restocking of items in all machines, assist with Asset recovery.
    - d) Administrator – Administrative access to the APEX vending software as designated by the EMS Commander.
  2. Access (Attachment #2 Vending Workflow)
    - a) User access is the provider's Fire Department ID number. Providers with low ID numbers **do not** enter leading zeros.
      - (1) New user access is requested/issued through EMS Supply & Logistics Office.

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

- b) User selects one of the following:
  - (1) Dispense
  - (2) Check-Out Asset
  - (3) Check-In Asset
- c) Enter User PIN Number
  - (1) First time entry into the system, the provider will be prompted to create a unique 4-digit PIN.
  - (2) The PIN number must remain private and secure.
  - (3) PIN number resets are requested through EMS Supply & Logistics Office.
- d) Proceed to the steps of appropriate transaction
  - (1) II - Consumable Supply Replenishment
  - (2) III - Asset Check-Out/Check-In Procedures multi-door locker
  - (3) IV - Advanced Life Support (ALS) Surge Equipment Check-Out/Check-In Procedure

**B. Accountability**

- 1. APEX PIN Numbers
  - a) Providers select their own confidential PIN number during first login to the system.
  - b) Personnel are responsible to maintain appropriate security with their login credentials.
  - c) APEX PIN Number resets can be completed through EMS Supply & Logistics Office.
- 2. Unit Proximity Card
  - a) Personnel are required to maintain accountability of the unit proxy card and incorporate it into the daily/shift check.
  - b) Proximity card replacements are requested through EMS Supply & Logistics Office with appropriate Loss/Damage documentation.
- 3. Electronic Patient Care Reports
  - a) Appropriate supply and replenishment is documented via the ePCR and all transactions are subject to audit.
- 4. Controlled substance dispenses, and other supplies and equipment as needed send an immediate notification to EMS Duty Officers and designated EMS Staff.

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

**III. EMS Supply Replenishment**

**A. Incident Replenishment**

1. Provider documents the medication or skill resulting in equipment use in the appropriate data collection field in the ePCR.
2. Replenish consumable EMS supplies from Battalion or Hospital vending machine:
  - a) Enter Fire Department ID number
  - b) Select "1 – Dispense"
  - c) Enter PIN number
  - d) Scan unit's assigned proximity card
  - e) Enter last four (4) digits of the incident number
  - f) Select item(s) to vend
    - a) Item(s) dispensed from the 24-door locker, a quantity taken is entered.
    - b) The number of transactions is limited to 5 per session. The provider may repeat the Access steps again, for the same incident, if greater than 5 transactions are needed to acquire all items used.
  - g) Press \* then # to end session

**B. Non-Incident Specific Replenishment**

1. A very limited supply of non-incident specific items (i.e. gloves, lancets, glucometer strips, sharps containers, etc.) will be available in the APEX vending machines.
2. Replenish the non-incident specific items from the Battalion or Hospital vending machine:
  - a) Enter Fire Department ID number
  - b) Select "1 – Dispense"
  - c) Enter PIN number
  - d) Scan unit's assigned proximity card
  - e) Enter last station number twice (i.e. 0505, 1616, 4747, etc.) for incident number
  - f) Select item(s) to vend
    - a) Item(s) dispensed from the 24-door locker, a quantity taken is entered
  - g) Press \* then # to end session

**C. Expired Medication/Single Patient Use Item**

1. Provider places expired consumable in the return slot of the vending machine. This does not apply to controlled substances.
  - a) Item(s) that do not fit are given to the EMSDO

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

2. Replenish Supply from Battalion or Hospital vending machine:
  - a) Enter Fire Department ID number
  - b) Select "1 – Dispense"
  - c) Enter PIN number
  - d) Scan unit's assigned proximity card
  - e) Enter code "9999" for incident number
  - f) Select item(s) to vend
    - a) Item(s) dispensed from the 24-door locker, a quantity taken is entered
  - g) Press \* then # to end session

**D. Loss/Damaged Medication/Single Patient Use Item**

1. Provider returns damaged consumable in the return slot of the vending machine.
  - a) Item(s) that do not fit are given to an EMSDO
  - b) A loss/damage form is submitted to an EMSDO
2. Replenish Supply/Equipment from Battalion or Hospital vending machine:
  - a) Enter Fire Department ID number
  - b) Select "1 – Dispense"
  - c) Enter PIN number
  - d) Scan unit's assigned proximity card
  - e) Enter code "8888" for incident number
  - f) Select item(s) to vend
    - a) Item(s) dispensed from the 24-door locker, a quantity taken is entered
  - g) Press \* then # to end session

**E. Controlled Substances**

1. Controlled Substances will be stored in the hospital vending machine.
  - a) Each controlled substance will be labeled with a control number.
2. Provider documents usage of a controlled substance:
  - a) Enter into the ePCR appropriate data collection field
  - b) Complete waste form as required by *General Order 05-18, Advanced Life Support (ALS) Controlled Substances*
  - c) Enter the administration/waste into narcotics tracking
3. Replenish controlled substance from Hospital vending machine:
  - a) Enter Fire Department five (5) Digit ID number
  - b) Select "1 – Dispense"
  - c) Enter PIN number
  - d) Scan unit's assigned proximity card
  - e) Enter last four (4) digits of the incident number

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

- f) Select item to vend
  - a) Controlled substance transactions are limited to one vend per transaction.
  - b) The vending of a controlled substance will generate an email notification to designated EMS distribution group.
- 4. Provider will document the dispensed control number in narcotics tracking in accordance to *General Order 05-18, Advanced Life Support (ALS) Controlled Substances*.
- 5. An EMSDO performs an audit of the transaction:
  - a) Verification of ePCR entry
  - b) Verification of waste form if required
  - c) Verification of narcotics tracking entry
- F. Non-Vended EMS Supplies
  - 1. EMS supplies that are not available through the APEX vending machines and limited station supply stock may be requested through the EMS Supply & Logistics Office using the procedures in Attachment #5 – Procedures to Request Non-Vended EMS Supplies and Equipment.
  - 2. Only standardized EMS supplies or equipment as approved by the Emergency Medical Services Office will be available for request and distribution (Attachment #6 – Approved Standardized EMS Supply and Equipment List).
  - 3. EMS Supply & Logistics Office will use data surveillance to monitor EMS supply and equipment usage by individual Fire/EMS Stations or units and will adjust requests for EMS supplies or equipment if necessary.

**IV. Asset Check-Out/Check-In Procedures**

**A. Replacement Assets**

- 1. Asset equipment is available for replacement in the multi-door lockers if the asset is damaged, malfunctioning, or requiring service.
  - a) Provider must complete Loss/Damage Report and obtain Police Report in accordance with *General Order 08-05, Vehicle Accident and Loss Damage Reporting*.
  - b) Replacement asset equipment are checked out first, before checking in damaged, malfunctioning, or service required equipment. Check-Out and Check-In are separate transactions.

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

2. Check-Out replacement asset from multi-door locker:
  - a) Enter Fire Department ID number
  - b) Select "2 – Check-Out"
  - c) Enter PIN number
  - d) Select Asset Locker #
  - e) Scan unit's assigned proximity card
  - f) Remove asset
  - g) Close locker door
3. Check-In of damaged, malfunctioning, or service required asset to multi-door locker:
  - a) Enter Fire Department ID number
  - b) Select "3 – Check-In"
  - c) Enter PIN number
  - d) Enter Asset ID #, this is the last 5 digits of the serial number
    - (a) If asset is lost/stolen, the provider is to contact the EMSDO for the serial number of their assigned asset.
  - e) Select "2 Damage/Repair"
    - (a) The appropriate Locker Door will unlock/light up.
    - (b) Place the damaged, malfunctioning, or service required asset in the Locker with Loss/Damage Paperwork if required.
    - (c) If asset is lost or stolen, place the Loss/Damage and Police Report into the locker.
  - f) Close locker door. Asset is now locked and an alert will be sent to the EMSDO and to Supply & Logistics Coordinators.

**B. Replacement LP-15's**

1. Replacement LP-15's are available for replacement in the 2-door lockers if the LP-15 is damaged, malfunctioning, or requiring service.
  - a) Provider must complete Loss/Damage Report and obtain Police Report in accordance with *General Order 08-05, Vehicle Accident and Loss Damage Reporting*.
  - b) Provider must complete a Transfer of Equipment Form per the check sheet provided with the replacement LP15.
  - c) Replacement LP-15 is checked out first, before checking in damaged, malfunctioning, or service required equipment. Check-out and check-in are separate transactions.
2. Check-Out replacement LP15 from 2-door locker:
  - a) Enter Fire Department ID number
  - b) Select "1 – Check-Out"
  - c) Enter PIN number
  - d) Select equipment locker door number 72
  - e) Scan unit's assigned proximity card

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

- f) Remove replacement LP15
  - g) Close locker door. Checking in the bad asset is a separate transaction.
3. Check-In damaged, malfunctioning, or service required LP15 to 2-door locker:
- a) Enter Fire Department ID number
  - b) Select "2 – Check-In"
  - c) Enter PIN number
  - d) Enter Asset ID #, this is the last 5 digits of the LP15 serial number.
    - (1) If asset is lost/stolen, the provider is to contact the EMSDO for the serial number of their assigned asset.
  - e) Select "2 – Bad Asset"
  - f) Place LP15 into Locker 72 with Transfer of Equipment Form and Loss/Damage and Police Reports if required.
  - g) Close locker door. Asset is now locked and an alert will be sent to the EMSDO and to Supply & Logistics Coordinators.

**V. Advanced Life Support (ALS) Surge Equipment Check-In/Check-Out Procedure**

- A. The Fire/EMS Department will maintain five (5) fully stocked ALS Surge Lockers.
- B. Access to the surge locker is available to County Certified ALS Providers (*Attachment #3, EMS Surge Equipment Workflow*).
- C. The narcotics will be stored in a sealed narcotics box in a MedVault located inside the ALS Surge Locker.
- 1. The provider must remove sealed narcotic box from MedVault.
  - 2. Document the pickup in the narcotics tracking system
  - 3. Document the use of narcotics in accordance with *General Order 05-18, Advanced Life Support (ALS) Controlled Substances*
  - 4. Return sealed narcotic box to MedVault during surge equipment check-in.
- D. Accessing the equipment for check-in or check-out will generate an immediate email notification to a distribution list as designated by the EMS Commander.
- E. Surge Equipment Check-Out:
- 1. Enter Fire Department ID number
  - 2. Select "1 – Check-Out"
  - 3. Enter PIN number
  - 4. Select equipment locker door number 70
  - 5. Scan unit's assigned proximity card
  - 6. Remove equipment needed and acquire narcotics from MedVault in accordance with *General Order 05-18, Advanced Life Support (ALS) Controlled Substances*

**PRINCE GEORGE'S COUNTY, MARYLAND**  
**FIRE/EMERGENCY MEDICAL SERVICES DEPARTMENT GENERAL ORDER**

7. Make narcotic tracking entry
  - a) In narcotics tracking, pickup from APEX Safe
  - b) Email notification generated
- F. Surge Equipment Check-In:
  1. Enter Fire Department ID number
  2. Select "2 – Check-In"
  3. Enter PIN number
  4. Enter Asset ID – this is the last 5 digits of the LP15 serial number
  5. Select either
    - a) "1 – Good asset"
      - (1) This allows the equipment to be checked out again.
    - b) "2 – Bad asset"
      - (1) Prevents the equipment from being checked out until checked by EMS Logistics.
      - (2) Requires loss/damage form if applicable or a list of missing items requiring replacement for operational readiness.
      - (3) Provider emails EMS Logistics coordinator identified equipment issue(s).
  6. Select equipment locker door number
  7. Return all ALS surge equipment
  8. Return sealed stocked narcotic box into MedVault
  9. Close locker door
  10. Make narcotics tracking entry
    - a) In narcotics tracking system, return to APEX Safe
    - b) Email notification generated

APEX VENDING MACHINE & LOCKER LOCATIONS**

**BATTALION VENDING**

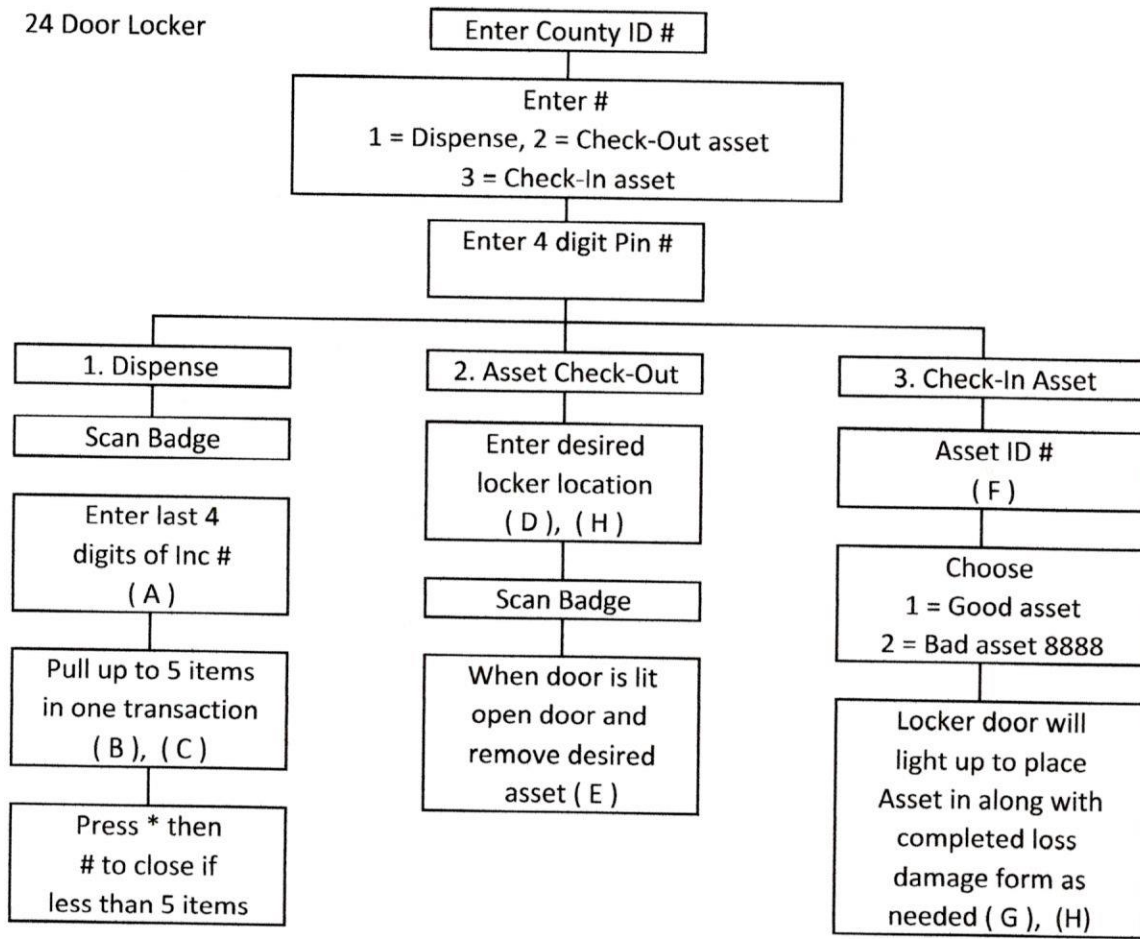

- 1<sup>st</sup> Battalion – Fire Services Building
- 2<sup>nd</sup> Battalion – Station 816
- 3<sup>rd</sup> Battalion – Station 826
- 4<sup>th</sup> Battalion – Station 812
- 5<sup>th</sup> Battalion – Station 832
- 6<sup>th</sup> Battalion – Station 810
- 7<sup>th</sup> Battalion – Station 845

**HOSPITAL VENDING**

- Doctors Community Hospital
- Prince George's Hospital Center
- Southern Maryland Hospital
- Fort Washington Hospital
- Station 844\* (Serving as location for Washington Adventist Hospital)

**SURGE LOCKERS**

- Station 801
- Station 812
- Station 832
- Station 849
- Fire Services Building

A: Actual incident # is last 4 of incident for: 1 for 1 items used on a call  
Last two of station # repeated for bulk and stock orders from machine.

Example: Station 830 would use: 3030

Station 805 would use: 0505

8888 = Damaged items to be replaced

9999 = Expired items to be replaced

Place expired item in round portal below the key pad on the Edge machine

B: **ONLY 1 INCIDENT # FOR EACH SET OF TRANSACTIONS**

If you have multiple incident numbers you MUST exit and begin new transaction for each incident #.

C: There is no MAX on incident #, session limit is 5. If more than 5 items are needed, follow sequence again. Repeat as needed to acquire all items needed for the incident.

D: Door 70 will be for the AED.

Door 80 will be for the Toughbook.

E: **DO NOT** place bad asset in at this time. Follow Check-In procedures.

F: The Asset ID # is the last 5 digits of the serial number. If the **FIRST** number is a ZERO, only enter the last 4 digits.

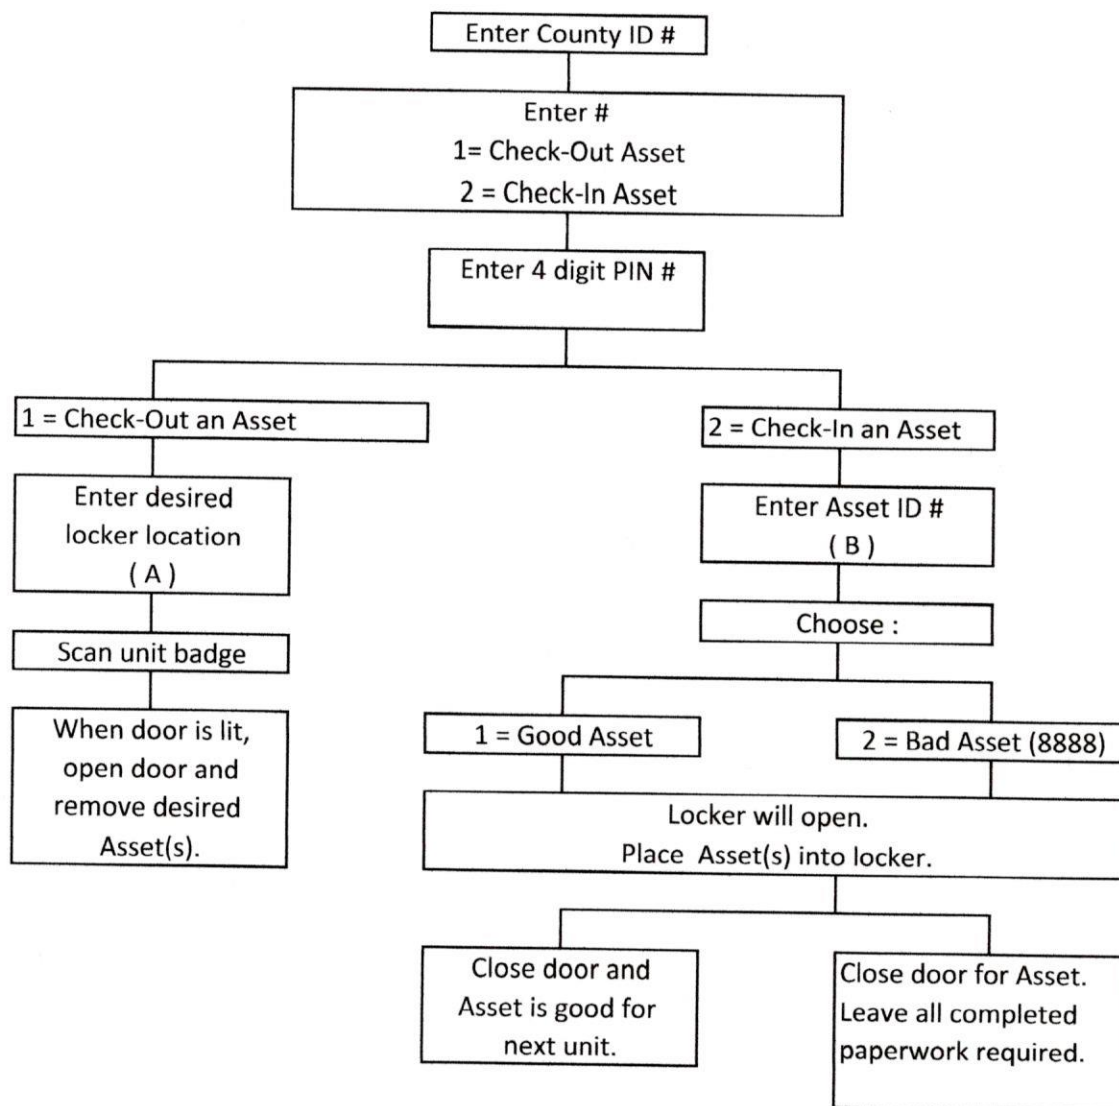

G: Loss damage form is located on the left side of the locker in a file hanger pouch. Fill out form completely.

H: There are NO Assets located at Hospitals, only Battalion Stations with the 24-door locker set up.

**PRINCE GEORGE'S COUNTY FIRE/EMS DEPARTMENT  
EMERGENCY MEDICAL SERVICES  
EMS SUPPLY & LOGISTICS**

**PROCEDURES TO REQUEST NON-VENDED EMS SUPPLIES & EQUIPMENT**

The following outlines the procedure to request EMS supplies and equipment which are not vended through the Battalion or Hospital APEX vending machines and limited station supply stocks.

1. Requests for EMS supplies and equipment are made electronically via e-mail ([PGFDEMSLogistics@co.pg.md.us](mailto:PGFDEMSLogistics@co.pg.md.us)) to EMS Supply & Logistics Office. All requests should be made weekly on Mondays to streamline this process. If a critical stock is identified at any time, the EMS Supply & Logistics Office may be contacted by phone at 301-583-1923.
2. E-mail subject line should include the requesting Station (i.e. "Station 801 EMS Supply Request").
3. Requests for EMS supplies and equipment should include the following information:
  - a. Name and rank/title of the requestor.
  - b. Contact phone number and e-mail of the requestor.
  - c. Item names/descriptions.
  - d. Quantity of each item.
  - e. OCS Stores Item Number (if available).
  - f. Purpose for the request.
4. EMS Supply & Logistics Office will compile all requests weekly and generate the necessary Expenditure Request Forms (ERF's) for processing through the appropriate Commands to procure the requested items.
5. Once approved, ordered, and notified of availability, EMS Supply & Logistics Office will pick up items from the Department's Logistics and Supply, sort, and distribute/deliver to the requested Fire/EMS Station during the vending machine restocking route.
6. EMS Supply & Logistics Office will maintain records of all station requests/distribution, as well as supply & equipment usage by station/unit.
