**SECTION III: SCOPE AND REQUIREMENTS**

**3.1 BACKGROUND/PROJECT DESCRIPTION**

The Redevelopment Authority's mission is to contribute to the creation of a diverse and vibrant economy and living environment for Prince George's County, using community building techniques and providing responsible and responsive development and redevelopment that is designed to enhance quality of life, balanced growth and job creation for diverse, sustainable communities. Beginning in the early 2000's, the RDA began acquiring the dilapidated and blighted properties in the Suitland Manor Subdivision, along Homer Avenue, Huron Avenue, Hudson Avenue, Lewis Avenue and Chelsea Way. The Acquisition, totaling 22 acres, was complete in 2007. The tenants were relocated and all buildings were demolished.

In late 2014, the RDA, together with its consulting team began planning the development of a new mixed-use community anchored by the Suitland Federal Center which houses the new headquarters of U.S. Census Bureau. Working collaboratively and assembling adjacent property owners, the RDA and its consulting team in 2015 guided the property through the entitlement process obtaining approval of the Preliminary Plan of Subdivision and the MUTC Special Permit. With adjacent property owners the total land area of the approved plans is approximately 25 +/- acres. These approved plans can be accessed at: <https://cjrlegal.sharefile.com/i/ib479c487d1040d1a>. Currently the development consultant/owner's representative is procuring the streets and alley closures under the County's Vacation Application process. The team will also acquire Record Plat/Final Plat for the new Subdivision to allow the project to advance to building permits.

The vision for the Towne Square at Suitland Federal Center is to establish an active and vibrant mixed-use, pedestrian-oriented community that enhances the lifestyles of residents of the immediate and surrounding neighborhoods. Since the adoption of the Suitland Sector Plan 9 years ago, market needs have shifted. The proposed plan enhances the original intent of the Development Plan while meeting current market needs and design trends.

The approved Master Plan realizes the goals and intent of the Suitland Town Center Mixed-Use Development Plan. This includes a 50,000 square foot Arts Center overlooking a park and mixed-use buildings, expressing an urban form and design. The proposed plan celebrates the contemporary lifestyles sought by modern populaces but recognizes the potential to enhance the base guidelines. Thus the proposed site and building designs reflect the progressive vision for this community: a distinct contemporary character with stimulating spaces to meet modern lifestyle expectations.

The proposed Towne Square at Suitland Federal Center Master Plan was developed to embrace the 6 key elements of the original sector plan:

- *A compact built environment with a pedestrian-friendly and well-landscaped town center core with mixed-use buildings that have pedestrian-oriented storefronts.*
- *Concentrations of uses and buildings in the core area through different forms of mixed-use development where visitors can accomplish multiple tasks with one trip and reduce the use of automobiles.*
- *Human-scaled, contextually designed buildings defining spaces in the town center core area and providing visual interest.*
- *Attractive, walkable and safe public spaces with well-designed public amenities that serve as the focus of activity.*
- *Buildings located close to the street with wide sidewalks where people shop, socialize and recreate.*
- *Parking as an integrated element of site design in an unobtrusive, secondary and creative physical arrangement.*

The focal point of the Master Plan is the dedicated civic and social gathering spaces that create a true sense of community. These neighborhood spaces serve as an epicenter from which various activities radiate. The surrounding blocks are lively mixed-use buildings with ground floor retail activating the street.

Easy access to everyday needs and conveniences is achieved through a town-center-style concentration of uses. The location of mixed-use buildings also establishes an urban core, where the major daily community needs are centrally located. Designed as a mixed-use community that caters to all markets and lifestyles, the proposed programs include multi-family, townhomes, a

grocery store, retail, an arts center, and senior housing. Located just outside these mixed-use blocks are single-family townhouse clusters. These clusters resonate as small, quiet neighborhoods, with the convenience of a town center within walking distance.

The proposed comprehensive design realizes the goals of the Suitland Town Center Mixed-Use Development Plan. It also captures the potential to enhance the base guidelines, and to progress towards the contemporary lifestyles that are so highly valued by modern populaces.

**3.2 SITE DESCRIPTION**

The Senior Housing site is identified as E on Fig 2 and situated on Parcel A, Block H of the Subdivision Plan. The Senior Housing site is approximately 1.21 acres which is a subset of the approximately 25.16 acres included in the approved Master Plan. It is a mostly flat site. It is the intent of the RDA to deliver the lots finished with the surrounding infrastructure in place. The selected developer will be responsible for all constructing all private alley sand parking lots.

The zoning is MUTC. It is the Offeror's responsibility to familiarize themselves with the requirements of the MUTC zone and the associated character areas. Two local plans are applicable to the site: The Approved Suitland Mixed-Use Town Center Development Plan (2006), and the Southern Green Line Sector Plan. The site is well served by public transportation with the Suitland Metro Station located approximately a half mile away. The Suitland Federal Center, with approximately 12,000 employees, is across Suitland Road from the site and within easy walking distance.

- **Predevelopment Recoverable Grant from Enterprise:** Projects that propose at least 50% of the units serving households at 80% or below of the Area Median Income (AMI) and agree to at least forty (40) years of low-income occupancy restrictions will be invited to apply for a \$50,000 Predevelopment Recoverable Grant from Enterprise Community Partners (Enterprise). These funds may be used to support predevelopment and planning expenses. The recoverable grant presumes repayment to Enterprise prior to project completion. Grant funding decisions will be made at the full discretion of Enterprise.
- Energy Star is encouraged but not required.
- The proposal should be appropriately scaled to complement the objectives of the Mixed Use Town Center zoning (MUTC).
- The project should take advantage of and comport with the Mixed Use Town Center zoning (MUTC) at the site.
- The project should embrace the principles of new urbanism, such as walk ability, green design, energy and water efficiency and appropriate density.
- The builder/development team must include a Prince George's County based non-profit entity who's role must be clearly defined.
- The RDA's major financial objective is to generate a reliable stream of income from the development for a significant number of years, to generate a front end capital infusion from the development, or a combination of the two.
- The RDA is willing to consider a fee simple sale of the site, a long term ground lease, or an equity partnership in the development.
