and Enforcement

NOTICE:
Site/Road Plan Review Adds Two Fees

Effective January 18, 2022, DPIE implemented permit fee changes per CB-38-2021, which enacts two fees related to site/road plan approvals. A fee is required on a site plan application that cannot be approved within four review cycles. Another fee is applied on deficient plans that omit road frontage improvements. Visit the Legislative/Zoning Information System (LZIS) to view the [CB-38 legislation](#).
