

TNI CLEAN ENERGY GRANTS

1

GET UP TO \$5,000 FOR ENERGY GRANTS

The TNI Clean Energy Grant Program joins the Office of the County Executive efforts to uplift 9 neighborhoods that face economic, health, public safety & educational challenges by offering residents of these nine communities (that are Pepco customers) the ability to apply for grants to perform energy efficiency retrofits & subsequently, install a rooftop solar system.

Program

Eligibility

Residents must:

- apply to Pepco's applicable Empower Maryland program.
- **be located in a TNI community.**

TNI Neighborhood
Bladensburg - East Riverdale
Forestville
Hillcrest Heights - Marlow Heights
Kentland - Palmer Park
Langley Park
Oxon Hill - Glassmanor
Silver Hill
Suitland - Coral Hills
Woodlawn - Lanham

1. Market Based Program

If you don't fall into the low-income range below, don't worry as you can still take advantage of grants up to \$7,500 from Pepco!

2. Income Based Program

The EmPOWER Maryland Low Income Energy Efficiency Program (LIEEP) helps with repairs and upgrades to homes, and the program is available **at no charge** to income-qualified households.

Size of Unit	Max Annual Household Income	Monthly Gross Income
1	\$24,120	\$2,010
2	\$32,480	\$2,706
3	\$40,840	\$3,403
4	\$49,200	\$4,100
5	\$57,560	\$4,796
6	\$65,920	\$5,493
7	\$74,280	\$6,190
8	\$82,640	\$6,886

2

UP TO \$10,000 FOR SOLAR

The grant to install solar PV is available to residents in the TNI designated communities located in the Pepco service territory who have successfully implemented the efficiency measures.

Eligibility

- 2 kWDC system minimum;
- System installed after Jan. 1, 2018
- Must be installed by an appropriately licensed contractor in accordance with state and county laws.

Incentives

1. Income Qualified*
 - receive up to \$10,000 for owned systems
2. Market Rate
 - receive up to \$5,000 for owned systems
 - ALL systems leased or financed through Solar PPA can get up to \$2,000.

* All participants must be within the Pepco service territory.

What's covered

Costs include any parts, component, or accessory equipment necessary to operate and/or install the device.
