# COVID-19 (Coronavirus)

## Vaccination Phased Distribution Plan

COVID-19 vaccines will be distributed through a phased approach to the most at-risk populations first. Vaccination efforts will continue until every Prince Georgian is able to get the vaccine. This is a long process that will take weeks to months to get through each phase. We will continue to keep the community updated on our progress in each phase.

### Phase 1A (January-February\*)

- Hospital and frontline healthcare workers
- Residents and staff of long-term care facilities
- Frontline first responders/essential public safety
- All licensed, registered and certified healthcare providers
- Department of Corrections healthcare staff and officers

### Phase 1B (February-March\*)

- Adults 75+
- Assisted living and other congregate facilities
- Critical government leadership for continuity of operations
- Education sector (teachers & support staff)
- Child care workers

### Phase 1C (March-April\*)

- Adults 65-74 years old
- Public safety and public health workers not covered in Phase 1A
- Essential workers at high risk of exposure
  1. Grocery store workers
  2. Food and agriculture workers
  3. Postal service workers
  4. Public transit workers

(April-May\*)

- Residents 16-64 years old with high-risk medical conditions
- Essential workers for critical infrastructure

\* Timelines are estimates and subject to change based on a number of factors.  
 \*\* Phases are subject to change based on guidance from the CDC and State of Maryland.
