

Vision Zero Prince George's High Injury Network for Pedestrian and Bike Crashes

The High Injury Network (HIN) represents one-mile corridors in Prince George's County with the greatest frequency and severity of bike and pedestrian crashes.

The HIN is divided into two categories based on the ownership of roadway. It includes the 10 corridors with greatest crash severity for all roadway types and the 10 corridors with greatest crash severity for County maintained roadways. The HIN is calculated based on 2015 – 2018 crash data provided by the State Highway Administration.

RANK	SEVERITY	ROADWAY
Top 10 High Injury Network All Roadway Types		
1	120	University Blvd. (Edward Pl. to West Park Drive)
