**MOMENTUM - Phase I (Licensing Launched 10/13/20)**

## Special Thanks!

### Teamwork

"Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organizational objectives. It is the fuel that allows common people to attain uncommon results."

— Andrew Carnegie

### From Yvette Gayles, Associate Director of Technology Business Systems and Operations

DPIE has transitioned to Momentum, a new online processing system. Phase 1, Licensing, went live on October 13, 2020, so all Prince George's County **Business and Rental Licenses** are now processed in Momentum. To learn more about Momentum and access the portal, click [Momentum Information](#).

As the manager of technology operations for the agency, I would like to highlight the teamwork required for such a large-scale project. The launch of phase I, Momentum was a success due to many dedicated members mentioned below along with various OIT members. Everyone performed a variety of tasks including programming, mapping, testing, reviewing, writing, designing, updating and technical support. When individuals collectively contribute their best to achieve such a "momentous" accomplishment, that

epitomizes teamwork. I would like to commend the hard work of all those who worked tirelessly on this effort.
