

Prince George's County
2018 OPIOID OVERDOSE REPORT

Summary

	PGC Resident Total Opioid Deaths	PGC Resident Heroin Deaths	PGC Resident Fentanyl Deaths	ED Opioid Overdose Visits	ED Heroin Overdose Visits	EMS Narcan Administration
2018	76	40	63	136	118	739
2017	101	42	75	225	190	951
2016	85	57	41	141	114	712

Data Source: Maryland Department of Health, Vital Statistics Administration; HSCRC, CRISP Overdose Dashboard; Prince George's County Fire/EMS, FirstWatch Database, Data as of 6/27/2019

Notes: Please see the following tables for additional information for each indicator

2018 PGC Resident Overdose Deaths by Substance

Age Group*	Any Opioid	Heroin	Fentanyl	Cocaine	Alcohol	All Overdoses
25-34	18	7	14	<5	6	23
35-44	16	10	13	7	8	25
45-54	13	10	10	6	5	22
55-64	19	7	16	5	5	23
65+	7	6	7	<5	<5	10
Total	76	40	63	20	27	106

* Under 25 years was suppressed to maintain confidentiality; cells containing values of <5 by specific cause are suppressed to protect confidentiality.

Data Source: Maryland Department of Health, Vital Statistics Administration, Data as of 6/27/2019

Notes: Multiple substances may be included in the cause of death for an individual

EMS Narcan Administration (Number of Persons Treated)

Age Group	2017	2018	% Change
15-24	72	43	-40.3%
25-34	203	147	-27.6%
35-44	128	106	-17.2%
45-54	210	173	-17.6%
55-64	215	165	-23.3%
65-74	80	73	-8.8%
Total	908	707	-22.1%

Data Source: Prince George's County Fire/EMS, FirstWatch Database, Accessed on 3/6/2019

Notes: Individuals treated in skilled nursing facilities and those age 75 and older were excluded. The data is by individual treated; some individuals have been treated multiple times and each event is included in the counts.

Limitations: Narcan was provided per EMS protocol and the final diagnosis may not be known, so it is not possible to confirm each event as an opioid overdose; those missing age are not included

2018 ED Visits for Overdoses

Prince George's County Residents, Maryland ED Visits for Overdose by Age (Counts)*

Age Group	Heroin	Any Opioid	Alcohol	Cocaine	Any OD
15-24	---	---	---	---	94
25-34	27	29	---	12	140
35-44	28	29	---	---	104
45-54	18	22	---	15	84
55-64	25	31	---	14	103
Total	118	136	47	50	654

Prince George's County Residents, Maryland ED Visits for Overdose by Age (Rate per 1,000)*

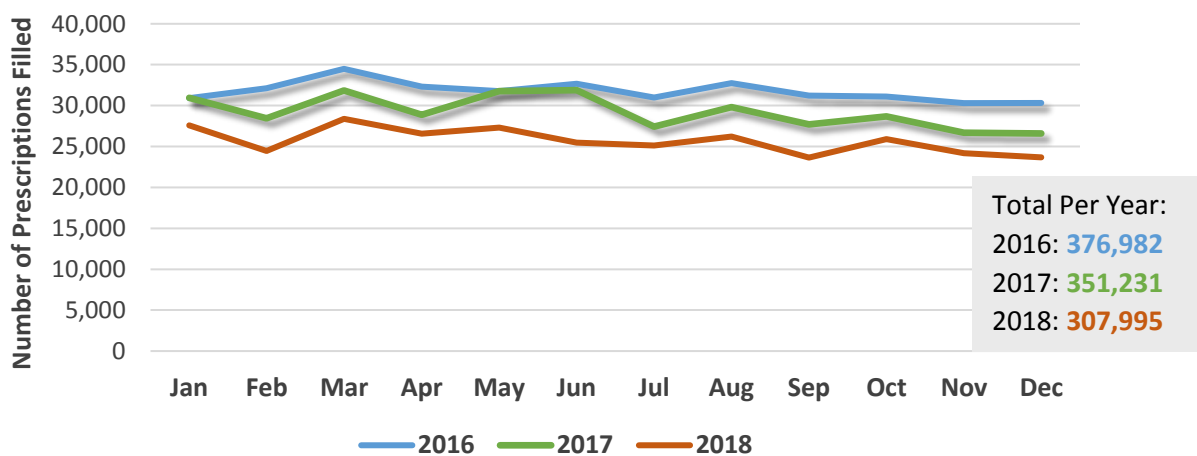

Age Group	Heroin	Any Opioid	Alcohol	Cocaine	Any OD
15-24	---	---	---	---	0.11
25-34	0.03	0.03	0.01	0.01	0.16
35-44	0.03	0.03	---	---	0.12
45-54	0.02	0.02	---	0.02	0.09
55-64	0.02	0.04	---	0.02	0.12
Total	0.13	0.15	0.05	0.06	0.74

* Cells containing values of <11 are suppressed; counts for prescription opioid overdoses were below this threshold

Data Source: 2018 HSCRC, CRISP Overdose Dashboard, Accessed on 6/24/2019

Limitations: Hospital visits to other jurisdictions, such as Washington, D.C., are not included; data only includes visits coded as "overdoses" and does not include all visits related to each substance

Prescription Monitoring (All Opioids)*

Data Source: MDH, CRISP Prescription Drug Monitoring Program Dashboard, Accessed 6/24/2019

* Prescriptions filled for Prince George's residents in Maryland or by mail order into the county.
