GREEDY LYING BASTARDS

FRIDAY, APRIL 6

12 p.m. - 2 p.m.

"Greedy Lying Bastards" investigates the reason behind stalled efforts to tackle climate change despite consensus in the scientific community that it is not only a reality but also a growing problem placing us on the brink of disaster. The film details the people and organizations casting doubt on climate science and claims that greenhouse gases are not affected by human behavior.

Run time: 1 hour, 30 minutes

DIRT! THE MOVIE

FRIDAY, APRIL 13

12 p.m. - 2 p.m.

For most of the last ten thousand years we humans understood our intimate bond with dirt and the rest of nature. We took care of the soils that took care of us. But, over time, we lost that connection. Our species became greedy and careless. We still depend on dirt, but now we abuse and ignore it. We are destroying our last natural resource with our agriculture, our mining, and our paving over the planet for cities.

Run time: 1 hour, 26 minutes

FOOD CHAINS

FRIDAY, APRIL 20

12 p.m. - 2 p.m.

There is so much interest in food these days yet there is almost no interest in the hands that pick that food. In the US, farm labor has always been one of the most difficult and poorly paid jobs and has relied on some of the nation's most vulnerable people. While the legal restrictions which kept people bound to farms, like slavery, have been abolished, exploitation still exists, ranging from wage theft to modern-day slavery.
