What is Case Management?

Case Management is a service provided to assist clients with accessing community resources. This adjunct service is to help remove any barriers that may impact an individual's recovery and wellness plan.

Who is eligible for Case Management Services?

Prince George's County residents who are actively involved in Substance Use Disorder Treatment and Mental Health Treatment.

What is the role of a Case Manager?

Community Case Managers are the single point of contact to help navigate, coordinate, and monitor services for residents seeking assistance.

How to receive Case Management Services?

Contact Prince George's County Health Department to obtain an Ancillary Referral Form. The referral must be completed by a Licensed Community Substance Use Disorder Provider and or Mental Health Provider.
