

DPIE Bulletin

DID YOU KNOW?

***DPIE issued 4,000
Virtual Permit Center
permits from
5/23-7/25***

The Virtual Permit Center (VPC) offers homeowners an expedited “walk-through” permit process, including the opportunity to meet with plan reviewers online. Once plans are complete, code requirements are met, and payment is made, permits can be issued on the same day and printed at home. Projects such as decks, basement finishing, fences, interior remodeling and other minor residential construction qualify.

Visit the Virtual Permit Process page on the DPIE website at dpie.mypgc.us for details.
