

PRINCE GEORGE'S COUNTY GOVERNMENT

Office of Procurement

Dear Prince George's County Supplier(s) and Business Community,

The Office of Procurement (OOP) is proud to offer the Green Book for fiscal year 2025. OOP was established as a new agency at the beginning of this fiscal year to bring a singular focus to the acquisition of goods, services, and commodities.

The Green Book is a digital business-to-government platform for County-based Small Businesses (CBSBs) and County-based Minority Business Enterprises (CBMBEs) aimed at connecting these firms to millions of dollars in procurement opportunities within the Prince George's County Government.

It highlights annual estimated procurement spending goals for up to 30 agencies and provides an agency-by-agency overview of diverse and local spending availability. This enables agencies to view the numerous opportunities available to our local, small and minority suppliers and assists with navigating the procurement process.

Specifically, the Green Book will:

- Assist County Agencies and Departments with increasing their utilization of County-based small and minority suppliers to meet the requirements for procurement spending in accordance with Procurement Code 10A-162.
- Maintain a centralized digital platform enabling County-based small and minority business to identify procurement opportunities by Agency.
- Establish Agency spending target for local County small and minority spending.

As Director, I am committed to examining ways to increase local, small and minority business utilization by remaining vigilant in identifying and implementing trailblazing practices that will continuously make measurable progress - and look forward to helping you achieve success.

Best,

A handwritten signature in black ink that reads "Pamela Ford Dickerson".

Pamela Ford Dickerson
Director, Office of Procurement

"Empowering progress through accountable, collaborative, and transparent procurement practices."
