

Office of Management and Budget

MISSION AND SERVICES

The Office of Management and Budget (OMB) provides financial planning and performance management to County agencies in order to ensure fiscal accountability and cost-effective use of service delivery resources.

CORE SERVICES

- Financial planning, including the formulation, implementation and monitoring of the County’s operating budget as well as the capital budget and the six-year Capital Improvement Program (CIP); grant and Economic Development Incentive Fund coordination; fiscal and economic analysis and administration of the County’s tax differential program
- Performance management, in conjunction with CountyStat, including analysis of agency operational data, business processes, policy, regional benchmarks and national best practices

FY 2023 KEY ACCOMPLISHMENTS

- Completed the submission of required federal reports related to the Coronavirus State and Local Fiscal Recovery Funds program.
- Provided a grant workshop to community organizations regarding the FY 2023 Local Development Council Local Impact Grant program.

STRATEGIC FOCUS AND INITIATIVES FOR FY 2024

The office’s top priorities in FY 2024 are:

- Maintain the County’s General Fund balance at or above 8% of the General Fund budget by providing regular reporting to the Office of the County Executive in order to identify potential revenue shortfalls or agency overspending and take corrective action where appropriate.
- Increase the percentage of programs in County Government’s service delivery inventory with primary source data that is reported to a centralized warehouse.
- Support the implementation of the Open Budget dashboards that will display and track department operating budgets to the County Executive’s priority outcomes and respective performance measures.

FY 2024 BUDGET SUMMARY

The FY 2024 proposed budget for the Office of Management and Budget is \$4,204,900, an increase of \$490,900 or 13.2% over the FY 2023 approved budget.

In FY 2024, compensation expenditures increase 10.6% over the FY 2023 budget primarily due to the annualization of FY 2023, planned FY 2024 salary adjustments and funding for a new position to serve as the Office's Performance Improvement Analyst. Compensation costs include funding for 29 out of 29 full time positions. In addition, two limited term grant funded positions are funded via the American Rescue Plan Act grant program. Fringe benefit expenditures increase 10.6% over the FY 2023 budget to align with projected costs.

Operating expenditures increase 27.7% over the FY 2023 budget primarily due to an increase in the technology allocation charge. Funding is also allocated for training, printing, general office supplies, interpretation services, membership costs and office equipment.

Recoveries increase 2.5% to align with anticipated costs.

SERVICE DELIVERY PLAN AND PERFORMANCE

Goal 1 — To provide sound financial planning and monitoring of agency operations and expenditures in order to improve the fiscal health of County Government.

Objective 1.1 — Maintain the County's General Fund balance at or above 7% of the General Fund budget.

FY 2028 Target	FY 2021 Actual	FY 2022 Actual	FY 2023 Estimated	FY 2024 Projected	Trend
8%	14%	17%	15%	14%	↔

Trend and Analysis

The percentage of total expenditures that reside in the County's fund balance is a critical indicator of the County's fiscal well-being, sustainability and a significant factor in maintaining the County's AAA bond ratings. It also provides critical protection against financial risk due to the County's limited ability to generate revenue as a result of charter-mandated and State-imposed tax caps or restrictions. The County's 5% charter mandated restricted reserve and 2% policy required committed operation reserve were established to control the County's exposure to financial risks and provide reserves in the event of emergencies.

The County has successfully kept its General Fund balance above 7% of its annual budget; however, this is at risk due to slowed growth resulting from the negative impact of the COVID-19 pandemic on County revenues and growing expenditure pressures. Fund balances are achieved through prudent revenue forecasting, effective expenditure monitoring and the application of sound fiscal policies (such as limiting use of fund balance to one-time nonrecurring expenditures). The County continues to have a structural imbalance arising from the mismatch between limited revenue growth and significant service delivery cost increases. This is largely driven by an expansion in base budget costs such as personnel compensation and fringe benefits based on collective bargaining agreements. Multi-year fiscal planning including projections for operating budget levels in future fiscal years will be restored and expanded in order to execute a plan to reconcile the structural balance between revenues and expenditures.

*Note: In FY 2021, the County implemented a new contracting review system. In the new process, OMB is not a reviewer through the workflow process. Therefore, "Contracts processed for all funds" will no longer be an output measure tracked for the Office.

Trend and Analysis

The agency is responsible for financial planning and ensuring that financial resources are available for agencies to utilize for their business operations. This metric reflects the duration of time between an agency forwarding the Notice of Grant Award to OMB and the subsequent loading of grant funds into the SAP system. In past fiscal years, the agency experienced an increase in this measurement due to staffing changes as well as a substantial increase in funding received related to addressing the COVID-19 pandemic. While the overall performance remains at fewer than 10 business days, the Office is taking the necessary measures to fill vacant positions to address the overall workload for staff.

Objective 1.3 — Maintain the County's annual debt service payment at or below 8% of the General Fund County source revenues.

FY 2028 Target	FY 2021 Actual	FY 2022 Actual	FY 2023 Estimated	FY 2024 Projected	Trend
8%	6%	7%	7%	8%	↔

Trend and Analysis

The County's fiscal policy requires that the ratio of debt service costs to General Fund County source revenues does not exceed 8%. It is anticipated that the County will reach this target by the end of FY 2025 due to slower economic growth as the economy recovers from the COVID-19 pandemic and growing debt costs associated with the capital program. The trend is growing due to the extensive Board of Education modernization plan that is estimated to cost over eight billion dollars over the span of 20 years. The County has several expensive capital improvement projects that are underway such as the Police Department's Special Operations Division facility, significant building improvements at the Community College, a new Regional Health and Human Services Center and increased investments in the maintenance of County buildings, the correctional facility, roads and bridges.

In recent years, debt service payments have benefited from bond premiums, therefore lowering overall debt costs. Also, the County continues to use other revenue sources such as public safety surcharge revenues to support the cost of many public safety capital projects thereby reducing the need to pay for debt costs over a 20 year period. Additionally, the County has partnered with the school system to implement their alternative school construction financing program. This program will identify different methods to deliver and meet the extensive infrastructure needs of the school system while reducing overall costs. As the capital program expands, the Office will continue to monitor the County's debt affordability and prioritize CIP projects within a long-term strategic framework in collaboration with all stakeholders.

Trend and Analysis

In the past two years, CountyStat has undergone a business process adjustment to shift focus from microlevel data management to a more solution-oriented and data-driven approach in addressing the County's most intractable concerns. As a result, the focus of the CountyStat team has moved towards project managing the larger Executive Office Priorities, including Beautification, Time to Fill, Flooding, Procurement, Violent Crime, and Permitting. CountyStat continues to work with all agencies involved to develop appropriate outcome measures for these priorities and expects to provide corresponding data in the next year.
