Prince George's Community College

AGENCY OVERVIEW

Agency Description

Prince George's Community College is a comprehensive academic institution providing both credit and non-credit post-secondary education for approximately 40,000 County residents, ranging in age from adolescence to senior citizens. The Community College operates under the legal framework provided by Title 16 of the Education Article of the Annotated Code of the State of Maryland, and with the general regulations promulgated by the Maryland Higher Education Commission (MHEC). Local policy is made by an eight-member Board of Trustees, seven of whom are appointed by the Governor (the eighth is elected by the student body). A President appointed by the Board of Trustees administers the College.

Facilities

Prince George's Community College operates from its Largo Campus as well as Extension and Degree Centers owned by other agencies and organizations. The Largo Campus consists of 150 acres with 18 permanent buildings and two (2) temporary buildings.

Needs Assessment

The Community College instituted a series of projects to modernize buildings aged 20 to 38 years, maintain major systems and meet code requirements. Additionally, the College Board of Trustees has adopted and updated the MHEC mandated Facilities Master Plan. This Master Plan establishes strategic initiatives aligned with the interests of the Community College's staff and Board to more effectively serve County residents through this century.

FY 2025 Funding Source

- General Obligation Bonds 35.9%
- State 64.1%

FY 2025-2030 Program Highlights

- The College's 2022-2032 Facilities Master Plan is underway; final results are expected by spring 2024. The final recommendations of this study will help inform the College's ongoing capital infrastructure planning and project phasing.
- College Improvements include the ongoing renovation of buildings on the campus. In FY 2025, the College plans to install a new scoreboard and replace the roof at Novak Field House. The athletic field will receive a scoreboard as well.
- In FY 2025. Marlboro Hall construction continues with substantial completion expected by mid-spring 2025 and final completion by summer 2025.
- In FY 2025, construction will resume on the Dr. Charlene Mickens Dukes Student Center Renovation project.

Project Completion	FY 2030	

Description: The project will renovate the 2nd and 3rd floors of Bladen Hall to create up-to-date classrooms, faculty offices and student and faculty meeting spaces. These areas will be used for liberal arts, social sciences and business departmental space to create greater visibility and improved facilities for these departments.

Justification: The faculty offices, student and faculty meeting spaces, restrooms and classrooms are outdated. Replacement or modification of the windows, air handling units, boilers, chillers and associated piping along with the building HVAC distribution are required. There is limited life left to some of the mechanical equipment that will be replaced as part of this project. The Bladen central plant renovation will be performed as a separate project.

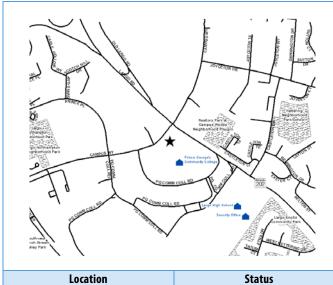

Highlights: Planning and design is delayed and will begin in FY 2027.

Enabling Legislation: CB-41-2022

	Estimate	Actual
1 st Year in Capital Program		FY 2025
1 st Year in Capital Budget		FY 2028
Completed Design	FY 2029	
Began Construction	FY 2030	
Project Completion	TBD	

Description: This project provides funding to renovate 65,300 gross square feet of general classrooms, science laboratories, and faculty office space and will add approximately 35,000 gross square feet of new science laboratories. The College will incorporate new technological innovations for modern classrooms and advanced science laboratories along with reconfiguring space to correspond to current educational program demands.

Justification: Chesapeake Hall will be 30 years old when the project is anticipated to commence design. The building's mechanical and electrical systems will have reached the end of their service life for a modern technological science academic building. Student study space, lounge, meeting and open space is very limited and requires a building expansion project that will meet the projected needs of the College for advanced science studies.

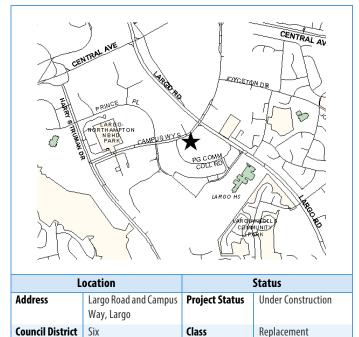

Highlights: This is a new project. Planning and design is expected to begin in FY 2028.

Enabling Legislation: Not Applicable

Description: The project provides funding for replacing mechanical, life safety, environmental temperature building controls and infrastructure items on the Largo Campus.

Justification: The projects included are based upon surveys that identify replacements and modifications necessary to maintain the proper operation of campus facilities.

Highlights: In FY 2025, new scoreboards will be installed at the athletic field and the Novak Field House. The roof at the Novak Field House will also be replaced.

Enabling Legislation: CB-41-2022

(Completed Design	FY 2025	
E	Began Construction		FY 2022
P	Project Completion	FY 2027	

Description: This project provides for the renovation of 50,742 net assignable square feet (NASF)/69,116 gross square feet and the construction of an addition totaling approximately 14,000 NASF of student services space. The building will be approximately 46 years old when construction begins, and it will be renovated to meet LEED Silver certification requirements.

Justification: The building's mechanical and electrical systems such as switchgear, electrical system, piping systems, lighting, flooring, air handling units, roof top split systems, chiller, air compressor, controls, pumps and motors and roof will have reached the end of their service life. The elevator is not ADA compliant and requires replacement. Student study space, lounge, meeting and open space is limited and requires a building expansion.

Highlights: In FY 2025, construction and equipment cost estimates have increased from the approved plan. Work is expected to resume in June 2025 and will result in a \$1,651,000 cost increase due to the delay.

Way, Largo

Largo-Lottsford

Description: This project constructs a new 145,665 net assignable square feet Health and Wellness Center to support the health, nutrition, physical education and athletics programs on campus. The building will create a state-of-the-art athletic and educational facility that will support the entire campus.

Justification: This project will provide the College with the opportunity to expand programming in health, nutrition and physical education areas. The new facility will offer the student population and community credit and non-credit courses currently not offered at the College.

Highlights: No significant highlights for this project.

Enabling Legislation: CB-41-2022

Description: The scope of this project provides for the renovation of 19,247 net additional square feet/30,738 gross square feet and the construction of a third floor addition of approximately 9,620 net additional square feet/15,000 gross square feet to the college administration building.

Justification: The space and layout of the building is ineffective, and the college administration has outgrown the building. The building's mechanical and electrical systems such as the elevator, switchgear, electrical system, piping systems, lighting, flooring, air handling units, roof top split systems, air compressor, controls, pumps, motors and emergency generator will have reached the end of their service life and require replacement during renovation.

Highlights: No significant highlights for this project.

Way, Largo

Largo-Lottsford

Description: This project will provide parking for the students, faculty and guests on the campus. Due to the expansion and new buildings on the campus, parking has become sparse.

Justification: The demand for parking on a daily basis has become difficult at times. This project will address the parking demands and public safety concerns.

Highlights: No significant highlights for this project.

	Estimate	Actual
1 st Year in Capital Program		FY 2006
1 st Year in Capital Budget		FY 2018
Completed Design		FY 2021
Began Construction		FY 2022
Project Completion	FY 2025	

Description: This project provides funding to renovate 130,156 gross square feet of general classroom and faculty office space. The College will incorporate technological innovations for modern classrooms and reconfigure space to correspond to current educational program demands.

Justification: Marlboro Hall was 35 years old when the project commenced design. Technological and architectural improvements will be necessary to modernize the building and reconfigure the spaces to meet educational demand needs. The Facilities Evaluation Survey conducted by Myers Engineering, Inc. in March 1998 recommended extensive exterior masonry and foundation work, expansion joint work, ceiling replacement of automatic temperature controls with direct digital controls along with other mechanical and electrical improvements.

Highlights: In FY 2025, construction continues with substantial completion expected by spring 2025 and with final completion expected by summer 2025.

Enabling Legislation: CB-41-2022

Began Construction	TBD	
Project Completion	TBD	

Description: This project provided preliminary funding for a feasibility study in FY 2015 to build a college campus in the southern area of the County.

Justification: Growth in the southern area of the County indicates the need for this new campus. The purposes of locating a campus of PGCC in the southern portion of the County are to reduce the number of residents leaving the County to attend the College of Southern Maryland and improve access to PGCC generally for south County residents.

Highlights: The Southern Region Campus (SRC) will be conceptually designed in the College's upcoming 2022-2032 Facilities Master Plan which is set for release by spring 2024. In FY 2027, funds support planning and design.
