

Rey de Guzman Named Acting Associate Director of Site/Road Plan Review

Site/Road Plan Review Chief Engineer Rey de Guzman has been designated to take over the leadership of the Site/Road Plan Review Division after the promotion of former Associate Director Mary Giles to Acting Deputy Director of DPIE.

De Guzman has more than 35 years of experience in Prince George's County government. His most recent responsibilities included responsibility for the review and permitting of all bridge and roadway construction, roadway improvements, storm drain infrastructure, stormwater management and flood mitigation facilities and policies, floodplain management and more. He also serves on many technical and policy entities in the establishment of regulations, process development, and code changes.

His achievements include the National Capital Business Park; National Harbor; MGM National Harbor; Suitland Town Center; the University of Maryland Capital Region Medical Center in Largo; FedEx Field; Konterra Town Center; and the establishment of DPIE itself. Prior to DPIE, de Guzman served as principal engineer at the Department of Environmental Resources (now DoE) Watershed Protection Branch. He was promoted to district engineer at the Department of Public Works and Transportation (DPW&T) and later promoted to division chief for the Engineering and Inspections Division.

He is a licensed Professional Engineer (P.E.) in the State of Maryland, the Commonwealth of Virginia, and the District of Columbia. He is also the recipient of various prestigious awards, including the 2019 County Engineers Association of Maryland (CEAM) Service Award, which honors outstanding urban land development professionals.

Rey obtained his Bachelor of Science in Civil Engineering and Bachelor of Science in Environmental and Sanitary Engineering from Mapua Institute of Technology, Manila, Philippines.

In his spare time, de Guzman is active in his church in Alexandria, Virginia, and with his family.
