

NOTICE

New Prince George's County Permit Process: **Submittal of TPIP Document**

Effective August 25, 2025, DPIE modified the Momentum system to allow permit applicants to upload TPIP "Attachment #1 — Statement of Third-Party Inspections (STPI) Form" earlier in the permit process.

DPIE is urging all permit applicants to accurately complete and upload TPIP Attachment #1 IMMEDIATELY after permit plans are uploaded.

TPIP Attachment #1 should be uploaded to your Momentum permit case. Avoid last-minute delays to your permit issuance by providing this document to be processed concurrently with engineering plan reviews!

Permit Applicants:

1. Review detailed instructions for **preparing and submitting** "Attachment #1 — Statement of Third-Party Inspections (STPI) Form" on DPIE's [Commercial Inspections](#) page BEFORE submitting to [Momentum](#).
2. Review instructions for **uploading** "Attachment #1 — Statement of Third-Party Inspections (STPI) Form" on DPIE's [Commercial Inspections](#) page BEFORE submitting to [Momentum](#).

For questions regarding TPIP processing, contact the DPIE Permitting and Licensing Division at 301-636-2050.
